Subject: Fw: Tower 2 #517 requires capping on development

Hi guys, below is any email from David Mark. Can someone take care of this today and give him a call.

Danielle

Hi Danielle,
Aries and Kathy reminded me to ask you to cap the development levy, can you?
Thank you,
David Mark

Subject: Re: Suite #517 T2 - To be Executed!

Great! I will be out of the office tomorrow.
Andrea would you mind making sure it all gets to Frank and Lillianna?

Subject: Suite #517 T2 - To be Executed!

Hi all,
just did a deal for this suite. Here is the story for Lil to go with it.

David Mark is the co-op agent he is with living realty and is under the VIP 15% structure, We discussed this at the Grand opening on thursday and that is why he brought the client in today.(I made sure to change the broker co-op from 90 days for the first 2% to 120 days for lillianna)

They are aware Lil has to sign off on most of this deal and I told them it will go to her this Tuesday.

There are a few concerns that need to be addresses within the 10 day cooling off, as both of the purchasers are handi-cap.
Ps. They are sooo sweet!

Questions for Lillianna

- 1.Will they be able to get handi-cap parking ? They will be submitted proof with their file.
- 2.How big is the handi-cap space
- 3.What are the restrictions on the space (may they put a car and bike in it? or 2 smart cars)
- 4.What type of separation wall is on the terrace?

5. When can they buy a 2nd space?

6. They will need at least one shower to be converted to walk-in shower (no tub) at time of upgrades. Is this 100% that we will have this option.

7. At time of upgrade will there be an option to put in wall mount oven (due to it being difficult for Katherine to bend down)

there is a typed out copy of these questions on the file as well

File is in the TO BE EXECUTED section of the Cabinet
