November 3, 2009

I Luigi Belsito from unit 1809 I've been complening, since I moved in the end of july 2009, about strong fumes, or something tossic in my unit, because gives me a strong headache, itchy eyes, blocked nose, sore throat, upset stomach, and I've to go out of the unit,

So far nothing has been done to rectify the problem, hope an investigation will solve the problem soon.

As of this date the problem persist, included is an update list of date and times when these fumes start sometime for all day, or a few hours or day and night, I've to open windows and door, now is cold, I can't sleep with open windows anymore.

I suggest to be moved to another similar unit.

A handwritten signature in cursive script, appearing to read "Luigi Belsito".
