DATE OF REQUEST: JUNE 01st - 2009

SERVICE REQUEST:

1. The top drawer to the left of the refrigerator does not open & close properly
2. The top cabinet second to the right of the microwave is damaged - a
screw has pushed through.
3. The panels on the bottom cabinet to the left of the stove are
not leveled.
4. The AutoTemp controls on the Washer Machine seem to be reversed -
when we choose hot, cold water is used and the reverse.
(Someone has tried to fix this before, but it is still defected).
5. The left cabinet above the refrigerator is missing a cap to
cover a screw.

I authorize work to be performed even if I am not home.

Thank

Theresa A. Horng
