Good Morning,

I reviewed the following suite's hardwood as per our meeting on friday.

Eve:

Suite 1208 hardwood is lifting up due to pressure (under warranty)

Suite 802 this client has a tenant, this was damaged by the tenant. I already addressed this concern to the client and expressed that her warranty is past. We even provided with a little bet of wood so she can fix her floor as a courtesy. (Not under warranty)

Thank You,
