At the above date, time and location while the writer was at desk was approached by Resident from unit #206. He had advised the writer that he can hear the rattling noise in his unit. The writer and the resident went to amenity rooms as previous noise was coming from a fan in games room. Noises could be heard in rooms as well as walls of kitchen and theatre. The writer went to the unit to hear the sound. Once in, a sound could be heard coming from walls or ceiling close to the kitchen. The writer returned to desk, then the super (Baul) went to check and he was able to hear the noise too from walls. The Resident then filled out the American service sheet and wanted immediate action taken to fix noise.
