Monty:

Good Morning:

Frank has asked me to respond to your last e-mail:

1) **2609:** The front door lock has been fixed as noted. On Tuesday, March 22, 2011 – the Amacon Customer Service Department had Barwood Flooring access and repair initiated to your floor at the entry hallway. Customer Service reviewed the floor this morning and informed me that there is some movement. Barwood Flooring is scheduled to be on-site on Monday, March 28 2011 and will assess and address the flooring issue

again.

2) **509:** The only remaining issue with this unit is to spray the prepped area for stucco and some minimal paint touch up. The Customer Service Department is working in conjunction with your tenant for access and for scheduling the final repairs. Customer Service will address the outstanding issues with your tenant as he is unaware of the status of the unit.

Thank you,

GRAHME WALSH

Subject: Elle unit #2609 and 509

Hello Frank,

Just wants to update you with my unit #2609 at Elle. The front door lock is fixed .But the hardwood floor at the walkway is still the same (uneven) and not repaired. I showed this unit to one of my potential tenant but they are not renting it because of the floor. Please look after this as soon as possible (If possible to day). I will be very thankfuly you. And I also checked unit #509 and nothing is done there too.

Regards
