Dear **Yan Chun Fu**,

You are invited to participate in the **Canadian Tobacco and Nicotine Survey**, conducted by Statistics Canada.

**Your participation is important**

The main objective of the Canadian Tobacco and Nicotine Survey is to gather information about the prevalence of cigarette smoking, vaping, and cannabis use.

We want to hear from you whether or not you use these products.

Health Canada and other organizations will use the data to monitor changes in vaping, cannabis use and tobacco use.

This information is vital to the effective development and implementation of national and provincial strategies, policies and programs aimed at reducing the harms associated with the use of these substances.

**Participating is easy and secure**

To complete the questionnaire, please follow the instructions located in the top right corner of this letter. A Statistics Canada interviewer may call, email or text you to follow up if we do not receive your completed questionnaire by **January 24, 2022**.

This survey is conducted under the authority of the *Statistics Act*, which ensures that the information you provide will be kept confidential, and used only for statistical and research purposes. Information from partially completed or unsaved questionnaires may also be retained and used.

**To complete the questionnaire by phone, or for survey-related enquiries**

Contact us 7 days a week, including evenings (except holidays):

- 1-833-977-8287 (TTY: 1-866-753-7083\*)

**For technical assistance or other enquiries**

Contact us Monday to Friday (except holidays), from 8:00 a.m. to 7:00 p.m. (Eastern Time):

- 1-877-949-9492 (TTY: 1-800-363-7629\*)
