

CHECKING THE INSTALLATION SITE

Lot 43 1B
Bowmanville

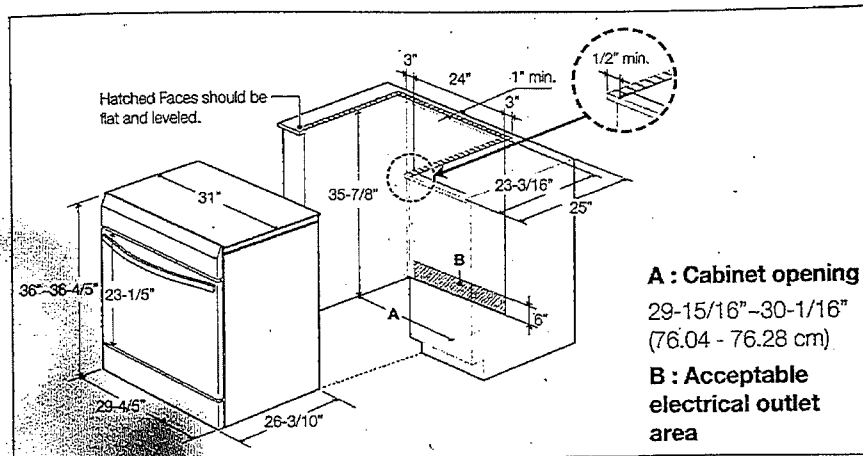

Clearances and dimensions

To install the range, refer to the following figure.

CAUTION

This range has been designed to comply with the maximum allowable wood cabinet temperatures of 194 °F. Make sure the wall covering, countertops, and cabinets around the range can withstand the heat (up to 194 °F) generated by the range. If not, discoloration, delamination, or melting may occur.

* If your cabinets are over 36-4/5" high, you must install this range on a hard, heat resistant surface that raises the surface of the range so that it is about even with the countertop.

01 PREPARING TO INSTALL THE RANGE
