Finish all sides of the custom panel. They may be visible when the door is open.

Locate the handle near the top of the door. Handle mounting hardware must be flush with the back of the door panel.

The extra depth (22") is ideal for supporting powerful professional ranges. Plus the All-in-One design avoids the need to purchase a stainless liner. Metallic rotating knob controls operate the 4 speed blower and halogen lighting.

Easy maintenance, higher efficiency and a cleaner kitchen are ensured by Elica's patented Baffle Slot Filters, which capture a higher percentage of contaminants and hold larger volumes of grease than traditional baffle filters. Arezzo is designed for standard ducted installation only.
