PLUS FEATURES

AMBIENT LIGHT - Elica studies on hood lighting leaves no stone unturned. Here we have thought about products not only able to light the cooktop, but the entire kitchen space. And so the hood is transformed: from a kitchen appliance to a true lighting element. Considering the design of Elica hoods, it is not hard to imagine how this option is quite unique, and represents one extraordinary point of strength for us.

LED LIGHT - LED lighting is undoubtedly the smartest solution in terms of energy saving. Expected life time of over 20.000 hours, represents the most remarkable advantage of LED light bulbs.

HUSH SYSTEM - An exclusive sound deadening technology that effectively reduces sound levels up to 35%, compared to typical range hoods.

DIM-LIGHT - The Dimmer allows you to adjust the brightness of the light as you wish. With Elica, lighting is customized in a discreet, personal and practical way, in order to contribute in creating the perfect kitchen atmosphere.

TOP PERFORMANCE - Excellent performance for models equipped with this plus. High fume capturing capacity with an average aspiration range of 600 CFM's. with low noise levels, 1.2 - 1.7 sones at working speed.

CFM REDUCTION - CFM Reduction System (CRS), is an exclusive feature to Elica hoods, which enables the user to reduce directly in the glass touch control the maximum blower CFM, to meet local code requirements.

ELECTRONIC TOUCH CONTROLS - Enjoy the modern design and convenience of multi-function electronic touch controls, which are discreetly hidden behind sleek black glass, and will illuminate a soft blue when activated.
