NOTES:

- Allow at least 22" (55.9cm) clearance in front of oven for door depth when it is open.
- Dimension G (cutout depth) is critical to the proper installation of the built-in oven. If the oven decorative trim does not butt against the cabinet verify dimension G to assure it is the required depth.
- For a cutout height greater than the maximum (H), add one 2"(5 cm) wide wood shim of appropriate height to each side of the opening under the appliance side rails. A trim kit may be purchased through a dealer, service, or on the brand website.

VARNA BSS WALL

LED light with dimmer

The clean lines, beautiful sloping angles and black stainless steel finish of Varna make a striking visual statement. Available in 30" or 36" width, Varna features include a powerful 600 CFM blower, LED dimmable lighting, dishwasher-safe stainless steel microhole filter, and easy to use glass capacitive touch controls that deliver convenience and safety.

Designed for standard ducted installation, Varna can also be installed with recirculating system using the kit available as an accessory.

TOP PERFORMANCE

Excellent performance for models equipped with this plus. High fume capturing capacity with an average aspiration range of 600 CFMs. With a noise level between 60-65 db(A) at maximum speed (reference point varies based on the hood category).

AMBIENT LIGHT

Elica studies on hood lighting leaves no stone unturned. Here we have thought about products not only able to light the cooktop, but the entire kitchen space. And so the hood is transformed; from a kitchen appliance to a true lighting element. Considering the design of Elica hoods, it is not hard to imagine how this option is unique, and represents one extraordinary point of strength for us.

LED LIGHTLED lighting is undoubtedly the smartest solution in terms of energy saving. Expected life time of over 20.000 hours, represents the most remarkable advantage of LED light bulbs.

HUSH SYSTEM
An exclusive sound deadening technology that effectively reduces sound levels by over 35%, compared to typical range hoods.

DIM-LIGHTThe Dimmer allows you to adjust the brightness of the light as you wish. With Elical lighting is customized in a discreet, personal and practical way, in order to contribute in creating the perfect kitchen atmosphere.

CFM REDUCTION

CFM Reduction System (CRS), is an exclusive feature to Elica hoods, which enables the installer to reduce the maximum blower CFM, to meet local code requirements.
