## 22.8 cu. ft. Smart Counter Depth 4-Door Flex™ Refrigerator with Beverage Center and Dual Ice Maker

### Installation Specifications

- Allow 2.5" of clearance on hinge side of refrigerator when installing next to a wall where handle may make contact.
- Allow 1" minimum clearance at rear for proper air circulation and water/electrical connections. Allow a 3/8" minimum clearance at sides and top for ease of installation.

All Dimensions show recommended spacing allowed, except for closet door ventilation openings which are minimum required. This washer has been tested for installation with spacing of 0" (0 mm) clearance on the sides. Consider allowing more space for ease of installation and servicing, and spacing for companion appliances and clearances for walls, doors, and floor moldings. Add spacing of 1" (25 mm) on all sides of washer to reduce noise transfer. If a closet door or louvered door is installed, top and bottom air openings in door are required.

\*For additional details (or information) specific to your model, refer to your Quick Start Guide.

#### CUSTOM UNDER COUNTER INSTALLATION

#### RECESSED AREA OR CLOSET INSTALLATION

**NOTE:** All 27" wide washers should have 19" clearance, while all 29" wide washers should have 22" clearance.
