

LOT 24 FC  
HOOD FAN INSERT

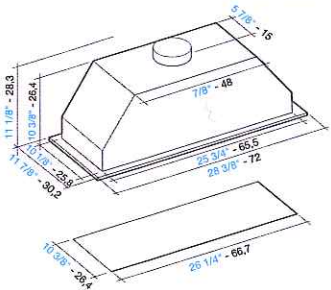

■ VALENTINA Insert

Valentina Design insert offers an exclusive perimeter suction system resulting in an elegant look and enhanced noise reduction, without compromising performance. The Valentina insert is the perfect complement to any luxury kitchen and can be controlled with its easy-to-use electronic controls or available remote control for hard-to-reach applications. Ideal for ceran and induction cooktops, the Valentina also offers enough power for most gas cooktops.

Designed and crafted in Italy, all Airmec inserts are made using superior quality brushed AISI 430 stainless steel, for the ultimate fit and finish to last a lifetime. Durable and removable washable aluminium filters are standard.
