Plus, there's a FreshFlow produce preserver that extends the freshness of produce by up to 25% and a FreshFlow air filter that's 15 times more effective than baking soda at reducing common food odours. In other words, all it takes to open up your entire kitchen is this flexible French door refrigerator.

- 30 Day Money-Back Guarantee, if you are not completely satisfied with the performance of your new qualifying Maytag appliance(s) Whirlpool Canada LP will take it back and refund the full purchase price including applicable taxes. Maytag® dishwashers featuring the Third Level Rack with specialized wash zone deliver more loading space and cleaning power,* while heated dishwasher drying options reduce excess moisture. Plus, Dual Power Filtration, an advanced dishwasher filtration system, disintegrates any food in its path, letting you skip the soaking, scrubbing and pre-rinsing.

- 30 Day Money-Back Guarantee, if you are not completely satisfied with the performance of your new qualifying Maytag appliance(s) Whirlpool Canada LP will take it back and refund the full purchase price including applicable taxes. (See Maytag 30 Day Money Back Performance Guarantee.pdf's for details)
- Dual Power filtration - Skip soaking, scrubbing and pre-rinsing with Maytag engineering that puts an end to pre-work. Industry-exclusive Dual Power Filtration combines 100% microfiltration and a 4-blade stainless steel chopper to filter out then disintegrate any food in its path.
- PowerBlast® cycle - Maytag brand's PowerBlast® dishwasher cycle uses increased water temperatures, high-pressure dishwasher jets and steam cleaning to blast off stuck-on food and leave your dishes sparkling. If you've got some heavy-duty messes, you can trust our dishwasher jets to spray away residue while the steam cycle polishes your dishes so they're ready to go.
- Long Heated Dry option - Up the temperature with an internal heater to reduce excess moisture inside your dishwasher. The Long Heated Dry option gets large loads of dishes nice and dry.
- Short Heated Dry option - Reduce excess moisture inside your dishwasher and get smaller loads of dishes nice and dry in less time.
- Touch controls - You're in control with a simple tap of your finger. Smooth, tap-to-activate settings give you quick and seamless access to powerful cleaning
- Leak Detect - The Leak Detect system is a combination of multiple features that measure and monitor the flow of water at various points. If a problem is sensed, the unit can take action by draining the tub and alerting you when necessary
- Steam Sanitize option - Offers a Steam Sanitize option with a high-temperature rinse. The Steam Sanitize option allows you to confidently wash important items like baby bottles because it is shown to remove 99.999% of food soil bacteria.
- End-of-cycle indicator - The end-of-cycle indicator lets you know exactly where the dishwasher is in the wash cycle: when it's in process, when it's finished and when the Steam Sanitize option is in use.
