Hi Wendy & Darlene,

I am scanning this email and putting it in PASS. It will be located under Amendments. It will have today's date on it.

Regards,

Patti Bonham
Pratt Hansen Group Inc

Thanks Cynthia,
Could you also have Patti scan this into PASS for us, please?
Thanks,
Wendy

Sorry, one more thing.....I was given a stack of sink and faucet specifications from the purchaser at the time of colour selection and the sink specifications show the desired location of the faucet. I have highlighted this in yellow. I will attach the specifications to the box in a plastic sleeve.

Thanks again,
Cindy

Hi Wendy,

As mentioned earlier in an email, the purchaser of Unit 41204 in Manhattan is supplying us with the sink and faucet. He was told (via Karen's instructions) to bring the sink (template) and faucet here to the office and I was told to let you know when it is here.....IT'S HERE!

It is important to know that his sink came with a template that should be forwarded to the granite supplier along with the order so they do not assume they are supplying the sink and make a wrong cut. I have opened the box to ensure the template is there and re taped the box to secure everything.

This purchaser is VERY nervous about every detail and I assured him we would look after everything.

Let me know if you have ANY questions.

Cindy

See you tomorrow morning!
