KitchenAid® Wine Cellar

PRODUCT MODEL NUMBER

KUWS24LS
KUWS24RS

Electrical: A 115-volt, 60-Hz, AC-only 15- or 20-amp fused, grounded electrical supply is required. A time-delay fuse or circuit breaker and separate circuit is recommended.

** Purchaser To Supply & Install
After Closing **

OVERALL DIMENSIONS

To ensure proper ventilation for your wine cellar, allow for a 1/4" (6.35 mm) space on each side and at the top. When installing your wine cellar next to a fixed wall, leave 2-1/2" (6.35 cm) minimum clearance on each side to allow for the door to swing open.

NOTE: It is recommended that you do not install the wine cellar near an oven, radiator, or other heat source. Do not install in a location where the temperature will fall below 55°F (13°C). For best performance, do not install the wine cellar behind a cabinet door or block the base grille.

Because Whirlpool Corporation policy includes a continuous commitment to improve our products, we reserve the right to change materials and specifications without notice.

Dimensions are for planning purposes only. For complete details, see Installation Instructions packed with product. Specifications subject to change without notice.
