FEATURES & BENEFITS

Seamless glass surface streamlines and simplifies cooking - A sleek look is yours with an edge-to-edge glass cooktop that provides a seamless, easy-to-clean surface with more usable cooking space for five course meals

The perfect match for pots and pans of all sizes - Tailor your burner size to your cookware with a 12"/9"/6" element with Power Boil

Enjoy total control in the kitchen and beyond - Control your oven with your smart device or simply your voice using WiFi Connect

Precise control delivers consistently delicious results - Achieve perfectly even desserts with accurate heat circulation thanks to True European Convection with Precise Air

Prepare foods to perfect doneness - Get roasts and meats just right with a temperature probe that lets you monitor progress without opening the oven door

An attractive appearance at all times - Every detail of your kitchen is designed to delight, thanks to a sleek backlit glass touch control panel that visually disappears when not in use and wakes up when prompted

Create a look that matches your personal style - Select any combination of premium finishes and hardware options to create a stunning look customized to any owner's taste

Allow your appliances to interact with one another - Create a chef-like experience with Chef Connect, which can synchronize your appliance clocks and surface lights and vent when a range burner is in use, and even your microwave and range clocks

Tough racks simplify loading and unloading - Easily access everything from heavy roasts to delicate desserts with heavy duty roller racks that glide smoothly on ball bearings and can stand up to the heat of self-clean

When you're updating your kitchen, attention to detail is a priority. That's why Café 30" slide-in ranges are guaranteed for an exact fit or Café Appliances will pay up to \$300 toward modifications

DIMENSIONS

Receptacle Locations: Locally approved flexible service cord or conduit must be used because terminals are not accessible after range installation. See shaded area in drawing for location of electrical outlet box. Recommended outlet locations allow range to be installed directly against rear wall.

Note: This appliance has been approved for 0" spacing to adjacent surfaces above the cooktop. However, a 6" minimum spacing to surfaces less than 15" above the cooktop and adjacent cabinet is recommended to reduce exposure to steam, grease splatter and heat.

Installation Information: Before installing, consult installation instructions for current dimensional data and additional requirements.

Café™ 1.7 Cu. Ft. Convection Over-the-Range Microwave Oven

CVM517P4MW2 / CVM517P3MD1 / CVM517P2MS1

DIMENSIONS AND INSTALLATION INFORMATION (IN INCHES)

Note: Requires 120V grounded outlet. Electrical receptacle must be located in cabinet above microwave oven. No additional wiring, venting or cabinet rebuilding necessary in many cases. Complete detailed, easy-to-follow installation instructions and convenient full-size templates are packed with the microwave oven.

Important Information: When installing the microwave oven over a range, allow minimum of 2" from bottom of microwave oven to top of range backguard to allow for removal of light covers.

Ventilation Options: The microwave ovens are designed for adaptation to the following three types of ventilation:

- Outside exhaust (vertical – as shown)
- Outside exhaust (horizontal)
- Recirculating (non-vented ductless – see Filter Kit drawing)

Installation Information: This information is not intended to be used for installing unit described. Before installing, consult installation instructions packed with product/kit for current dimensional data.

Hood Exhaust Duct: Outside ventilation requires a HOOD EXHAUST DUCT. Read the following carefully.

Exhaust Connection: The hood exhaust has been designed to mate with a standard 3-1/4" x 10" rectangular duct. If a round duct is required, a rectangular-to-round transition adaptor must be used. Do not use less than a 6" diameter duct.

Rear Exhaust: If a rear or horizontal exhaust is to be used, care should be taken to align exhaust with space between studs, or wall should be prepared at the time it is constructed by leaving enough space between the wall studs to accommodate exhaust.

Maximum Duct Length: For satisfactory air movement, the total duct length of 3-1/4" x 10" rectangular or 6" diameter round duct should not exceed 140 equivalent feet.

Elbows, Transitions, Wall and Roof Caps, etc., present additional resistance to airflow and are equivalent to a section of straight duct which is longer than their actual physical size. When calculating the total duct length, add the equivalent length of all transitions and adaptors plus the lengths of all straight duct sections. The chart below shows the approximate feet of equivalent length of some typical ducts.

DUCT	EQUIVALENT FEET
A. Rectangular-To round Transition Adaptor	5 ft.
B. Wall Cap	40 ft.
C. 90° Elbow	10 ft.
D. 45° Elbow	5 ft.
E. 90° Elbow	25 ft.
F. 45° Elbow	5 ft.
G. Roof Cap	24 ft.

OPTIONAL ACCESSORIES (AVAILABLE AT ADDITIONAL COST)

Filler Panel Kits JX36SS/DOS

When replacing a 36" range hood, this kit fills in the additional width to provide a custom built-in appearance. For installation between cabinets only; not for end-of-cabinet installation. Each kit contains two 3"-wide filler panels. This is included, not optional accessory at additional cost.
