ACKNOWLEDGEMENT OF RECEIPT FOR GRANITE AND MARBLE INFORMATION

Purchaser acknowledges receipt, understanding and acceptance of the following information as provided by the Vendor for Granite and Marble finishes.

- GRANITE IS A 100% NATURAL PRODUCT Every stone has its own unique qualities and characteristics. These
 range from natural pitting to areas of crystal deposits embedded within the stone as well as the stone's unique
 motion and patterns. Being a natural product that is quarried right from the earth, it also possesses excellent
 wear, resistance and heat exposure qualities.
- STONE HAS THE ABILITY TO REFLECT LIGHT DIFFERENTLY The same stone may appear to be different when
 viewed in various lighting conditions and different angles. The stone may also vary in colour or wave motion
 from one side to another depending on the concentration of minerals and crystals embedded within that stone.
 Thus, it is not always possible to book match the pieces of stone across joint or corner areas.
- EDGE FINISHES ARE NOT ALWAYS EQUIVALENT TO THE TOP FINISH The difference is often due to the stone's physical properties, colour and with the finished edge bias being different than that of the top surface. The finish is also affected by the type of edge profile, which is chosen.
- STONE IS A NATURAL PRODUCT THAT HAS MANY TINY PORES Liquids such as oils and red wine if left on the surface, may leave a ring. When using oil and red wines, it is best to wipe up the spills as soon as possible and leave the top to air dry.
- VIEW AND PICK YOUR SLAB FROM OUR SUPPLIER'S INVENTORY The Vendor will arrange for the Purchaser to view and select the slab of stone that the countertop will be made from, prior to it being templated. This will provide the Purchaser the opportunity to confirm that the counter will meet the Purchaser's expectations, as much as possible.
- PLEASE LOOK AT YOUR STONE CAREFULLY The Purchaser needs to be aware that the surface finish will have fissures, pits and pores. These naturally occurring features will vary in frequency and intensity depending on the type of stone chosen by the Purchaser.
- GRANITE IS AN IGNEOUS ROCK Meaning the stone was formed by the cooling and solidification of magma deep within the earth. Granite is composed of grains or crystals of Quartx, Feldspar and Mica.
- GRANITE IS A VERY HARD ROCK It is highly resistant to being scratched. On a scale of 1 to 10, Talc and Gypsum is at 1 and 2; Corundum and Diamond is at 9 and 10; and GRANITE is at 5 to 7. It withstands extreme temperatures, and is not nearly as prone to staining as marble is.
- GRANITE COUNTER TOPS WILL HAVE JOINTS Purchaser aware one joint will be at each corner and on either side of slide-in-range (if applicable). It will also be where the length of the counter top exceeds the length of a stone slab. Slabs are usually approximately 5'x8'. A 34" countertop weighs approximately 15 lbs., and a 1 34" counter top weighs as much as 23 lbs. per square foot.

MARBLE

- MARBLE IS A METAMORPHIC ROCK This means it was formed with limestone. Calcite/Dolomite was put under pressure and high temperatures deep within the earth's crust. The heat and pressure altered its crystalline structure and introduced other minerals that produced the colours and veining that marble is commonly known for.
- MARBLE IS VERY SOFT It can be scratched easily. On a scale of 1 to 10, Talc and Gypsum at 1 and 2; and Corundum and Diamond at 9 and 10; Marble is a 3 on that scale.
- MARBLE IS VERY SUSCEPTIBLE TO STAINING AND ETCHING Marble is NOT recommended for use as a counter top in kitchens. Marble is often used in bathroom counter top — however is very porous and may show water stains.
- MARBLE SHOULD NEVER BE CLEANED WITH SCOURING PADS Abrasive cleaners should NOT be used either, as they WILL scratch and damage the marble. Use the proper dedicated cleaners for marble counter tops.
- CLEANING PRODUCTS Solutions containing lemon oil or vinegar should NOT be used.
- COASTERS SHOULD BE USED Use under all glasses, particularly those containing alcohol or citrus juice.

WAIVER FOR STAINING OF STAIRS

Purchaser is aware that the hardwood flooring is a pre-finished product. It is finished in a factory, in a controlled environment and that the stairs in the home are finished on site. The Purchaser understands and accepts that although the Vendor will do their best to match the finish between the floors and the stairs, it is not possible to have an identical match, and that there MAY be shade differences between the two products.

I/We understand and fully accept the Terms as outlined by the Vendor, and authorize the Vendor to proceed as required.

STANDARD MOUDING

FRENCH DOOR

LFX25991

24.5 Cu.Ft. Total Capacity (Counter Depth Refrigerator)

Style and Design

- French Door Refrigerator with Slim SpacePlus™ Ice System and Bottom Freezer Drawers
- Counter Depth
- Premium Finish in Stainless Steel
- Contoured Doors with Matching Commercial Handles with Smart Pull™ Freezer Handle
- Hidden Hinges
- Premium LED Interior Light

Organization

- 3 Fixed, Spill-Protector™ Tempered Glass Shelves/1 Folding Shelf
- Slim SpacePlus™ Ice System
- Full Width, Temperature-Controlled Glide N' Serve™ Drawer
- 2 Humidity Crispers/1 Bonus Drawer
- 6 Door Baskets (2 Adjustable Gallon Size)
- 3-Tier Organization™ Freezer
- DuraBase™ Solid Drawer Base

Performance

- Linear Compressor: 10 Year Warranty
- Smart Cooling Plus System
- Fresh Air Filter
- Dual Evaporators
- Fully Integrated Tall Ice & Water Dispenser
- Premium Water Filtration System
- Multi-Air Flow Cooling
- Electronic Temperature Controls
- SmartDiagnosis™
- LoDecibel™ Quiet Operation
- Door Alarm

ENERGYSTAR® qualified models use at least 20% less energy than required by current federal standards. LG's Energy Star refrigerators allow consumers to save money, energy and protect

FRENCH DOOR

Largest Capacity

Enjoy the style of built-in with the largest capacity counterdepth refrigerator available. With 25 cu.ft., shallower depth and flushed with your countertop you can store more food than ever before.

Cut out the Clutter
The LG Slim SpacePlus™ Ice System is on the inside door, freeing up valuable space in the fresh food shelf compartments and allowing for even more space for door bins. More space means you can store more food.

Peace of Mind

When you buy a refrigerator, you don't want to worry that it won't last. Because the Linear Compressor motor uses fewer moving parts and operates more efficiently, LG confidently backs the motor with a 10 year warranty.

Smart Cooling Plus System
Smart Cooling Plus technology is designed to maintain superior conditions within the refrigerator. The Linear Compressor and Dual Evaporators react quickly to humidity and temperature levels and help keep your food fresher, longer. Meanwhile, strategically-placed vents in every section surround your food with cool, fresh air no matter where you put it.

Call, Connect, Resolve SmartDiagnosis™ uses self diagnosing technology that can communicate 24/7 with LG customer service over the telephone insuring accurate, and timely resolution.

Breath of Fresh Air

The Fresh Air Filter quickly removes 99.9% of food odours from the refrigerator - every 2 hours.

BERTAZZONI MASTER SERIES

36" 5 BURNER GAS OVEN RANGE MAS36 5 GAS XT

The handsome Bertazzoni Master Series ranges bring a true professional touch to your cooking. They are fully engineered for performance and designed with standard dimensions to work with existing kitchen layouts and units. The Master Series 36" extra-wide oven has a balanced air-flow convection fan for single and multi-level roasting and baking with no flavor crossover. The oven includes telescopic glide shelves, soft-motion door hinges for easy one-hand operation, and triple-glass windows to minimize heat loss. The beautiful worktop is precision-molded off of one sheet of stainless steel. It is configured with five versatile gas burners in brass, including Bertazzoni's signature dual-ring power burner with independently controlled flames for high power to delicate simmer, and an electric griddle in stainless steel. The worktop is designed for high-efficiency in heat delivery without energy waste. Each burner is equipped with the thermocouple gas shut-off safety system for maximum safety. Complete your Bertazzoni range with any of the available ventilation and backsplash solutions, as well as low profile trim, toekick and other beautiful accessories.

BRASS BURNER

Bertazzoni's exclusive power burners in brass have independently operated flame rings giving maximum flexibility of operation from delicate low simmer to full power.

CONTROLS

Ranges are controlled by large round softtouch knobs and feature a professional style handle. The distinctive Bertazzoni dial gauge displays the heating progress of the oven.

TELESCOPIC GLIDE SHELVES

The telescopic oven rack provides more convenient oven access and easier handling of hot and heavy dishes.

INSTALLATION INSTRUCTIONS

Bertazzoni recommends to operate the appliance after it has been installed in a cabinet. The kitchen cabinets shall be made of materials capable of withstanding temperatures at least 117°F (65°C) above room temperature in order to avoid possible damage to the cabinets during oven usage. For further installation instructions refer to the installation manual.
