5 PIECE PAINT GRADE MAPLE DOOR ACKNOWLEDGEMENT WAIVER

Wood is a living product that is influenced by moisture content in the air. In Canada where the temperatures go from +30 degrees Celsius to -20 degrees Celsius between summer and winter it is inevitable for wood products to expand and contract.

When a door is stained the stain penetrates into the wood and although the door is subject to the same expansion and contraction as the seasons change, the expansion and contraction of the wood is not as visible as when the same thing happens to a painted door. A painted door has primer and paint on the SURFACE of the door. The paint does not penetrate the wood like the stain does and as a result when the wood expands and contracts it is evidenced by thin surface cracks or splitting (particularly at the joints). These cracks cannot be repaired without sanding down and repainting the door. For this reason QTK Fine Cabinetry (QTK) offers the same doors styles that are offered in 5 Piece Paint Grade Maple in a 1 Piece Fiberboard Door. You can ask your sales representative or décor consultant to show you the corresponding Fiberboard door. Fiberboard is a synthetic man made wood product that is more stable and will not expand and contract and will never develop surface cracks at the joints.

QTK recommends that you select a 1 piece Fiberboard Door of the same style.

As a result of your selection of a Paint Grade Maple 5 Piece door you must acknowledge the risks associated with your choice. Should you choose to ignore QTK's warning you also accept that QTK nor the builder or contractor will warrant or repair any cracks on the joints of any 5 Piece Paint Grade Maple Doors.

The Customer has ignored QTK's warning about the potential issues with 5 Piece Paint Grade Maple doors and agrees to not hold QTK Fine Cabinetry or the builder/contractor liable for any repairs or replacement to the cabinet doors as a result of surface cracks that may have been caused by the changing moisture conditions.

INTERIOR FINISHES ACKNOWLEDGEMENT / HARDWOOD WAIVER

Purchaser accepts and acknowledges that the Builder reserves the right to substitute materials with those of equal or better quality where the manufacture, scheduling or delivery of materials may directly impact the Builder's ability to meet its' contractual obligations under the Agreement of Purchase and Sale.

PORCELAIN & NATURAL STONES: Due to the properties of natural stones including but not limited to **marble, granite, quartz**, no two pieces are exactly the same. Variations in colour, tone, granularity (pitting, fissures) and pattern are to be expected, including various lighting may affect the overall finished look. Stone should never be cleaned with lemon oil or vinegar. The purchaser acknowledges colour and product variations as well as natural imperfections that may exist with the selection of natural stone materials and shall not hold the Vendor liable for provision of same.

STONE COUNTERTOP JOINTS: Purchaser is aware that one joint will be at each corner and on either side of slide-in-range (if applicable). It will also be where the length of the counter top exceeds the length of a stone slab. Slabs are usually approximately 5'x 8'.

CERAMIC TILES: Due to manufacturing, shade (dye lots), product variations may exist that can affect the overall look of the finished product. Although every effort will be made to ensure the colours and materials selected are as close as possible to the samples, the purchaser acknowledges that the sample tiles supplied in the Design Centre may not be identical to the materials installed in the home.

STAIR STAINS: Due to the natural properties of wood, many variables can affect the overall look of the finished product. Factors including but not limited to wood type, knotting, graining, density, age, humidity, and air temperature can result in substantial variations in stain intensity. The purchaser accepts that although the Vendor will do their best to match stain the unfinished stairs as close as possible to the pre-finished floors, it is not possible to have an identical match and that there MAY be shade differences between the two products.

CABINETRY: Due to the natural properties of wood, slight variations apparent with cabinetry are to be expected. This includes but not limited to wood species, wood grain, colour, finish, product variations, and natural imperfections are all factors that may affect the overall look of the finished product. Such factors make exact colour matching impossible. The type and intensity of lighting in the areas of designated cabinetry placement may also highlight characteristics of cabinetry finish. All cabinets shall be finished with a white melamine interior box unless a finished interior is upgraded. Due to building specifications and/or on-site conditions, certain cabinetry upgrades may not be possible. The purchaser acknowledges that the Builder cannot guarantee the cabinetry finish or provision of certain upgrades and shall not hold the Builder liable for provision of same.

UPGRADES/EXTRAS: All upgrades and additional selections indicated on the colour chart must be accompanied by an upgrades/extras sheet (PES) and full payment otherwise the selection will be invalid. All colour charts and upgrades/extras will not proceed until verified and signed by an authorized signing officer at the Vendor's head office. **CHANGES WILL NOT BE PERMITTED UPON COMPLETION AND SUBMISSION OF THE COLOUR CHART.**

HARDWOOD FLOORING: Due to the natural properties of wood, many variables can affect the overall look of the finished product. Variations include but not limited to wood type, colour/stain and wood grain are significant factors that make exact colour matching impossible. The purchaser acknowledges that the hardwood flooring is a pre-finished product in a controlled environment. Expansion, compression and cupping are characteristics of hardwood flooring once installed in the home. The purchaser acknowledges these may become apparent over time and despite the Builders' efforts to install the hardwood flooring materials in keeping with good workmanship, the Builder shall not be responsible nor held liable for minor variances of fluctuation in hardwood flooring materials.

HARDWOOD WAIVER:

I/We understand hardwood flooring is classified as a porous material and as such not recommended by the Builder in certain areas. I/We understand there is a concern due to possible water and other substances being frequently splashed or spilled onto the floor and in contravention of Ontario Building Code Section 9.30.1.2(1).

"Finished flooring bathrooms, kitchens, public entrance halls, laundry & general storage areas shall consist of resilient flooring, felted-synthetic-fibre floor coverings, concrete, terrazzo, ceramic tile, mastic or other types of flooring providing similar degrees of water resistance.

I/We are prepared to assume full responsibility for any damage caused to the hardwood floor or subfloor due to moisture absorbency in the mentioned areas, and agree to waive any claims against the Township of residence, TARION and/or the Builder in relation to the matter.
