## WAIVER FORM FOR UNFINISHED STAIRS, HANDRAIL AND PICKETS

LOT No.

81.

PLAN No.

HOMEOWNER(S)

Shaun ATTOB

CIVIC ADDRESS

I/We the purchaser/s for the above-mentioned property have requested the Builder **LEAVE UNFINISHED** the stairs, handrail, picket and stringer (where applicable) for both the main floor stairs to upper floor and stairs from the main floor to lower landing in our home. I/We understand that the builder will take normal precautions in attempting to keep the stairs clean; however stains, dents, etc. due to construction traffic may be unavoidable. I/We take full responsibility for any finishing (sanding, staining, filling and removing staples and/or nails, etc.) and agree to waive any claims against the vendor or trades in relation to this matter. I/We understand that any work and/or damage done by me/us or any trade/contractor hired by me/us is not warrantable under the Builder or covered by TARION.

I/We hereby release and forever discharge Zancor Homes Ltd., any affiliated companies and all its directors, officers, servants, employees, agents, TARION, \_\_\_(City)\_\_\_ and the Town of Leppa, of and from any and all damages, loss or injury however arising, which we may have hereafter with reference to said stairs.

In addition, it is understood and agreed that I/We will keep this agreement strictly confidential.

**I/We read and understand the above terms and conditions.**

Dated at Leppa, this \_\_\_ day of \_\_\_, 2014

**INTERIOR FINISHES ACKNOWLEDGEMENT / HARDWOOD WAIVER**

Purchaser accepts and acknowledges that the Builder reserves the right to substitute materials with those of equal or better quality where the manufacture, scheduling or delivery of materials may directly impact the Builder's ability to meet its' contractual obligations under the Agreement of Purchase and Sale.

**PORCELAIN & NATURAL STONES:** Due to the properties of natural stones including but not limited to **marble, granite, quartz**, no two pieces are exactly the same. Variations in colour, tone, granularity (pitting, fissures) and pattern are to be expected, including various lighting may affect the overall finished look. Stone should never be cleaned with lemon oil or vinegar. The purchaser acknowledges colour and product variations as well as natural imperfections that may exist with the selection of natural stone materials and shall not hold the Vendor liable for provision of same.

**STONE COUNTERTOP JOINTS:** Purchaser is aware that one joint will be at each corner and on either side of slide-in-range (if applicable). It will also be where the length of the counter top exceeds the length of a stone slab. Slabs are usually approximately 5' x 8'.

**CERAMIC TILES:** Due to manufacturing, shade (dye lots), product variations may exist that can affect the overall look of the finished product. Although every effort will be made to ensure the colours and materials selected are as close as possible to the samples, the purchaser acknowledges that the sample tiles supplied in the Design Centre may not be identical to the materials installed in the home.

**STAIR STAINS:** Due to the natural properties of wood, many variables can affect the overall look of the finished product. Factors including but not limited to wood type, knotting, graining, density, age, humidity, and air temperature can result in substantial variations in stain intensity. The purchaser accepts that although the Vendor will do their best to match stain the unfinished stairs as close as possible to the pre-finished floors, it is not possible to have an identical match and that there MAY be shade differences between the two products.

**CABINETRY:** Due to the natural properties of wood, slight variations apparent with cabinetry are to be expected. This includes but not limited to wood species, wood grain, colour, finish, product variations, and natural imperfections are all factors that may affect the overall look of the finished product. Such factors make exact colour matching impossible. The type and intensity of lighting in the areas of designated cabinetry placement may also highlight characteristics of cabinetry finish. All cabinets shall be finished with a white melamine interior box unless a finished interior is upgraded. Due to building specifications and/or on-site conditions, certain cabinetry upgrades may not be possible. The purchaser acknowledges that the Builder cannot guarantee the cabinetry finish or provision of certain upgrades and shall not hold the Builder liable for provision of same.

**UPGRADES/EXTRAS:** All upgrades and additional selections indicated on the colour chart must be accompanied by an upgrades/extras sheet (PES) and full payment otherwise the selection will be invalid. All colour charts and upgrades/extras will not proceed until verified and signed by an authorized signing officer at the Vendor's head office. **CHANGES WILL NOT BE PERMITTED UPON COMPLETION AND SUBMISSION OF THE COLOUR CHART.**

**HARDWOOD FLOORING:** Due to the natural properties of wood, many variables can affect the overall look of the finished product. Variations include but not limited to wood type, colour/stain and wood grain are significant factors that make exact colour matching impossible. The purchaser acknowledges that the hardwood flooring is a pre-finished product in a controlled environment. Expansion, compression and cupping are characteristics of hardwood flooring once installed in the home. The purchaser acknowledges these may become apparent over time and despite the Builders' efforts to install the hardwood flooring materials in keeping with good workmanship, the Builder shall not be responsible nor held liable for minor variances of fluctuation in hardwood flooring materials.

**HARDWOOD WAIVER:**

I/We understand hardwood flooring is classified as a porous material and as such not recommended by the Builder in certain areas. I/We understand there is a concern due to possible water and other substances being frequently splashed or spilled onto the floor and in contravention of Ontario Building Code Section 9.30.1.2(1).

*"Finished flooring bathrooms, kitchens, public entrance halls, laundry & general storage areas shall consist of resilient flooring, felted-synthetic-fibre floor coverings, concrete, terrazzo, ceramic tile, mastic or other types of flooring providing similar degrees of water resistance."*

I/We are prepared to assume full responsibility for any damage caused to the hardwood floor or subfloor due to moisture absorbency in the mentioned areas, and agree to waive any claims against the Township of residence, TARION and/or the Builder in relation to the matter.

Additional charges may apply for cabinetry, electrical and plumbing in order to accommodate the specs given by the homeowner.

**NOTE:** It is the Purchaser's responsibility to coordinate delivery, installation and hook up of appliances and to ensure they are installed as per Manufacturers specifications after closing.

Purchaser acknowledges responsibility for providing correct specification for such appliances. The purchaser agrees to deliver forthwith to the Builder the manufacturer's appliance specifications where the size exceeds the standard openings.

If specs not received, the standard openings as determined by Zancor Homes will be provided. If rework/repair is required due to late specs received, additional costs will be applied.

Appliance Specs are DUE (if not received during appointment):

**2 WEEKS FROM SIGNED DATE ABOVE** - Specs received after this date and changes are required to accommodate the appliances, an administration fee of minimum \$250 will apply.

\*Changes must be approved by head office.

# All Freezer

FPFU19F8RF

Shown with companion, All-Refrigerator model FFRU19F8RF and optional coordinated Dual 75" Louvered Trim Kit (TRIMKITEZ2).

## Signature Features

**PureAir Ultra® Filtration System**  
Fresh air offers great taste. PureAir Ultra® Filtration removes up to 7 times more odour than baking soda to keep ingredients tasting fresh by removing odour particles with fast-acting, highly absorbent carbon technology.<sup>1</sup>

**Smudge-Proof™**  
Resists fingerprints and cleans easily.

**SpacePro™ Shelving System**  
Always have ingredients on-hand and accessible with organizational solutions designed for space optimization like SpacePro™ Door Bins, SpacePro™ Shelving and SpacePro™ Storage Baskets.

**Automatic Alerts**  
Alerts you if the door is left open, if the temperature rises or if the power goes out so your food stays at its optimal temperature.

18.6 Cu. Ft.

### Product Dimensions

Height (Cabinet Incl Hinge)	70-5/8"
Width	32"
Depth (Including Door)	26-1/2"

### More Easy-To-Use Features

**Soft Freeze™ Zone**  
Keep frozen foods soft and easy to eat with the Soft Freeze™ Zone. Great for foods like ice cream, sticks of margarine and bread.

**PowerBright™ LED Lighting**  
Find frozen foods quickly with PowerBright™ LED Lighting.

**SpacePro™ Shelving**  
Optimize your freezer space with adjustable shelving.

**SpacePro™ Door Bins**  
Adjustable door bins for quick access to frozen foods.

**SpacePro™ Storage Baskets**  
Two full-width adjustable storage baskets keep things organized, and accessible.

**PowerPlus® Ice Maker**  
Unlimited access to ice.

**PrecisionPro Controls™**  
Adjust settings at the touch of a button.

Sabbath Mode (Star-K® Certified)

### Built-In All-Freezer Specifications

- Product Shipping Weight - 245 Lbs.
- An electrical supply with grounded three-prong receptacle is required. The power supply circuit must be installed in accordance with current edition of National Electrical Code (NEC/PA 70) and local codes & ordinances.
- Voltage Rating - 115V/60 Hz/20 Amps
- Connected Load (KW Rating) @ 115 Volts = 0.55 kW
- Amps @ 115 Volts = 15 Amps
- Always consult local and national electric & plumbing codes.
- Water line for ice maker can enter opening through floor or rear wall. Copper tubing recommended between cold water line and water connection location. Water line tubing recommended is 48" minimum length by 1/4" diameter. Installation of easily accessible shutoff valve in water line required.
- Minimum 25-1/4" depth requires recessed electrical outlet and copper water line.
- To allow for ease of installation, tape excess power cord to back of unit.
- To allow for ease of moving out side-by-side units after installation, 84" minimum length of coiled copper tubing recommended.
- When installing freezer adjacent to wall, cabinet or other appliance that extends beyond front edge of unit, 20" minimum clearance recommended to allow for optimum 140° door swing, providing complete drawer / crispper access and removal. (Absolute 4" minimum clearance will ONLY allow for 90° door swing which will provide limited drawer / crispper access with restricted removal)
- Minimum 3/8" clearance required for sides and top of refrigerator or freezer with 1" clearance at rear to allow for ease of installation, proper air circulation, and plumbing / electrical connections.

### "Built-In Look" Specifications

- Minimum opening of 72" H x 33" W x 25-1/4" D required for single-unit "Built-In Look" installation; 66" W required for double-unit installation. (72" H to be measured from finished floor to underside of soft or overhead cabinet.)
- Remove all wall / floor moulding prior to built-in installation.
- If optional Single or Double Lowered Trim Kit is to be used, different cutout dimensions are required. Kit can be adapted to fit either 75" or 79" opening height. (Refer to cutout dimensions on this page and detailed Lowered Trim Kit installation instructions included with kit or on web.)
- Remove all wall / floor moulding prior to built-in installation.

Note: For planning purposes only. Refer to Product Installation Guide on the web at [frigidaire.ca](http://frigidaire.ca) for detailed instructions.

### Optional Accessories

- Single Lowered Trim Kit - (PN # TRIMKITEZ1).
- Double Lowered Trim Kit - (PN # TRIMKITEZ2).
- PureAdvantage® Air Filter Replacement Cartridge - (PN # 24175400T).

16821 Pack 30/17

# All Refrigerator

## FPRU19F8RF

18.6 Cu. Ft.

Shown with companion, All-Freezer model FPFU19F8RF and optional coordinated Dual 75" Louvered Trim Kit (TRIMKITEZ2).

### Signature Features

**PureAir Ultra<sup>®</sup> Filtration System**  
Fresh air offers great taste. PureAir Ultra<sup>®</sup> Filtration removes up to 7 times more odour than baking soda to keep ingredients tasting fresh.<sup>1</sup>

**Smudge-Proof<sup>™</sup>**  
Resists fingerprints and cleans easily.

**SpacePro<sup>™</sup> Shelving System**  
Offers quick access to fresh ingredients with organizational solutions designed for space optimization including SpacePro<sup>™</sup> Door Bins, SpacePro<sup>™</sup> Crisper Bins and SpacePro<sup>™</sup> Full-Width Drawer.

**Automatic Alerts**  
Alerts you if the door is left open, if the temperature rises or if the power goes out so your food stays at its optimal temperature.

### Product Dimensions

Height (Cabinet Incl. Hinge)	70-5/8"
Width	32"
Depth (Including Door)	26-1/2"

### More Easy-To-Use Features

#### SpacePro<sup>™</sup> Crisper Bins

Keep a variety of foods fresh and easily accessible with our SpacePro<sup>™</sup> Crisper Bins.

#### SpacePro<sup>™</sup> Full-Width Drawer

Fits a variety of fresh foods for quick access.

#### SpacePro<sup>™</sup> Shelving

Optimize your refrigerator space with adjustable shelving.

#### SpacePro<sup>™</sup> Door Bins

Access fresh food from our adjustable gallon-size door bins quickly.

#### PowerBright<sup>™</sup> LED Lighting

Find fresh foods quickly with PowerBright<sup>™</sup> LED Lighting.

#### PrecisionPro Controls<sup>™</sup>

Adjust settings at the touch of a button.

Sabbath Mode (Star-K<sup>®</sup> Certified)

Available in:

Stainless  
(F)

### Optional Trim Kits

#### Single 79" Louvered

#### or 75" Collar Trim Kit (TRIMKITEZ1)

Optional trim kit that is designed to provide a built-in look for the All Refrigerator. Install with louver for 79" fit or easy-to-remove louver for a 75" fitted collar look.

#### Dual 79" Louvered

#### or 75" Collar Trim Kit (TRIMKITEZ2)

Optional trim kit that is designed to provide a built-in look for the All Refrigerator and All Freezer when the units are installed next to each other. Install with louver for 79" fit or easy-to-remove louver for a 75" fitted collar look.

<sup>1</sup>Based on a six-hour closed door test of certain common odours in the fresh food compartment of a 21 Cu. Ft. refrigerator.

### Built-In All-Refrigerator Specifications

- Product Shipping Weight - 245 Lbs.
- An electrical supply with grounded three-prong receptacle is required. The power supply circuit must be installed in accordance with current edition of *National Electrical Code (NEPA 70)* and local codes & ordinances.
- Voltage Rating - 115V / 60 Hz / 20 Amps
- Connected Load (kW Rating) @ 115 Volts = 0.55 kW
- Amps @ 115 Volts = 15 Amps
- Always consult local and national electric codes.
- Minimum 25-1/4" depth requires recessed electrical outlet.
- To allow for ease of installation, tape excess power cord to back of unit.
- When installing refrigerator adjacent to wall, cabinet or other appliance that extends beyond front edge of unit, 20" minimum clearance recommended to allow for optimum 140° door swing providing complete drawer / crisper access and removal. (Absolute 4" minimum clearance will ONLY allow for 90° door swing which will provide limited drawer / crisper access with restricted removal.)
- Minimum 3/8" clearance required for sides and top of refrigerator or freezer with 1" clearance at rear to allow for ease of installation, proper air circulation, and plumbing / electrical connections.
- To ensure optimum performance, (do not install in areas where temperature drops below 55°F or rises above 110°F) and avoid installing in direct sunlight or close proximity to range dishwasher or other heat source.

### "Built-In Look" Specifications

- Minimum opening of 72" H x 33" W x 25-1/4" D required for single-unit "Built-In Look" installation; 66" W required for double-unit installation. (72" H to be measured from finished floor to underside of soffit or overhead cabinet.)
- Remove all wall / floor moulding prior to built-in installation.

### Optional Trim Kit Specifications

- If optional Single or Double Louvered Trim Kit is to be used, different cutout dimensions are required; kit can be adapted to fit either 75" or 79" opening height. (Refer to cutout dimensions on this page and detailed Louvered Trim Kit installation instructions included with kit or on web.)
- Remove all wall / floor moulding prior to built-in installation.

Note: For planning purposes only. Refer to Product Installation Guide on the web at [frigidaire.ca](http://frigidaire.ca) for detailed instructions.

### Optional Accessories

- Single Louvered Trim Kit - (PN # TRIMKITEZ1).
- Double Louvered Trim Kit - (PN # TRIMKITEZ2).
- PureAdvantage® Air Filter Replacement Cartridge - (PN # 24175400).

ASPIRE SERIES

Arezzo provides professional grade performance, while being discreetly mounted inside the cabinetry. Arezzo is available in 28<sup>1/2"</sup> width with a 600 CFM blower, and equipped with a 1200 CFM blower for widths of 34<sup>1/2"</sup>, 40<sup>7/2"</sup> and 46<sup>1/2"</sup> for extraordinary ventilating power. Stainless rotating knob controls operate the 4 speed blower and halogen lighting.

Easy maintenance, higher efficiency and a cleaner kitchen are ensured by Elica's patented Baffle Slot Filters, which capture a higher percentage of contaminants and hold larger volumes of grease than traditional baffle filters. Arezzo is designed for standard ducted installation only.

## Venting Requirements

**Vent system must terminate to the outdoors.**

- Do not terminate the vent system in an attic or enclosed areas.
- Do not use 4" (10.2 cm) laundry-type wall caps.
- Use metal vent only. Rigid metal vent is recommended. Plastic or metal foil vent is not recommended.
- The length of vent system and number of elbows should be kept to a minimum to provide efficient performance.

**For the most efficient and quiet operation:**

- Use no more than three 90° elbows.
- Make sure there is a minimum of 24" (61.0 cm) of straight vent between the elbows if more than 1 elbow is used.
- Do not install 2 elbows together.
- Use clamps to seal all joints in the vent system and use furnace duct tape to fully seal joint connection.
- Use caulking to seal exterior wall or roof opening around the cap.
- The size of the vent should be uniform.

## Cold weather installations

An additional back draft damper should be installed to minimize backward cold air flow as part of the vent system. A thermal break should be installed to minimize conduction of outside temperatures as part of the vent system. The damper should be on the cold air side of the thermal break. The break should be as close as possible to where the vent system enters the heated portion of the house.

## Make-Up air

Local building codes may require the use of make-up air systems when using ventilation systems greater than specified CFM of air movement. The specified CFM varies from locale to locale. Consult your HVAC professional for specific requirements in your area.

Venting Methods

- The hood exhaust opening has a 10" diameter round vent outlet.
- On installations using the 600 CFM Blower Motor Systems, 8" round vent system is recommended.
- On installations using the 1200 CFM Blower Motor Systems, a 10" round vent system should be used.
- You can use a smaller round vent system , but there will be a louder sound level.

NOTE: Flexible vent is not recommended. Flexible vent creates back pressure and air turbulence that greatly reduce performance. Vent system can terminate either through the roof or wall. To vent through the wall, a 90° elbow is needed.

Handwritten signature

Prepare the Location

1. Disconnect power.
2. Determine which venting method to use: roof or wall exhaust.
3. Select a flat surface for assembling the hood insert. Place covering over that surface.
  - It is recommended that the vent system be installed before hood is installed.
  - Before making cutouts, make sure there is proper clearance within the ceiling or wall for exhaust vent.
  - Hood insert should be installed a minimum 24" (61 cm) above an electric cooktop surface and 30" (76.2 cm) above a gas cook top surface. The maximum recommended height over both cook tops is 36" (91.44 cm).
  - Check that all installation parts have been removed from the shipping carton.
4. Using 2 or more people, lift hood insert onto covered surface.
5. Remove the filters. See the "Cleaning" section.

Stainless Steel Hood Spacer Installation

You can elongate 1.5" of your range hood width (¾" per side), installing the stainless steel spacers included with your range hood.

1. Unpack the spacer and take off the protective.
2. Put each one on the right and the left side
3. Fasten hood spacer using four 5 x 45 mm screws to the hood cabinet and tighten securely.

10681.

Handwritten signature

Install Range Hood into Hood Cabinet

The range hood attaches to the hood cabinet using four mounting screws and washers.  
NOTE: Hood cabinet must be capable of supporting 75 lb (34 kg).

- Prepare Range hood for mounting into cabinet
1. Mark the locations for the four mounting screws on the hood cabinet as shown below.
  2. Using a ¼" (3 mm) drill bit, drill the 4 holes.

MOUNTING HOLE DIMENSIONS					
Hood Insert	DIM B	DIM C	DIM D	DIM E	DIM F
EAR628SS	5 1/2" (14 cm)	11" (28 cm)	12 3/4" (32.3 cm)	24 3/4" (61.8 cm)	Ø1/8" (3mm)
