INTERIOR FINISHES ACKNOWLEDGEMENT / WAIVER

Purchaser accepts and acknowledges that the Builder reserves the right to substitute materials with those of equal or better quality where the manufacture, scheduling or delivery of materials may directly impact the Builder's ability to meet its' contractual obligations under the Agreement of Purchase and Sale.

PORCELAIN & NATURAL STONES: Due to the properties of natural stones including but not limited to **marble, granite, quartz**, no two pieces are exactly the same. Variations in colour, tone, granularity (pitting, fissures) and pattern are to be expected, including various lighting may affect the overall finished look. Stone should never be cleaned with lemon oil or vinegar. The purchaser acknowledges colour and product variations as well as natural imperfections that may exist with the selection of natural stone materials and shall not hold the Vendor liable for provision of same.

STONE COUNTERTOP JOINTS: Purchaser is aware that one joint will be at each corner and on either side of slide-in range (if applicable). It will also be where the length of the counter top exceeds the length of a stone slab. Slabs are usually approximately 5' x 8'.

CERAMIC TILES: Due to manufacturing, shade (dye lots), product variations may exist that can affect the overall look of the finished product. Although every effort will be made to ensure the colours and materials selected are as close as possible to the samples, the purchaser acknowledges that the sample tiles supplied in the Design Centre may not be identical to the materials installed in the home.

STAIR STAINS: Due to the natural properties of wood, many variables can affect the overall look of the finished product. Factors including but not limited to wood type, knotting, graining, density, age, humidity, and air temperature can result in substantial variations in stain intensity. The purchaser accepts that although the Vendor will do their best to match stain the unfinished stairs as close as possible to the pre-finished floors, it is not possible to have an identical match and that there MAY be shade differences between the two products.

CABINETRY: Due to the natural properties of wood, slight variations apparent with cabinetry are to be expected. This includes but not limited to wood species, wood grain, colour, finish, product variations, and natural imperfections are all factors that may affect the overall look of the finished product. Such factors make exact colour matching impossible. The type and intensity of lighting in the areas of designated cabinetry placement may also highlight characteristics of cabinetry finish. All cabinets shall be finished with a white melamine interior box unless a finished interior is upgraded. Due to building specifications and/or on-site conditions, certain cabinetry upgrades may not be possible. The purchaser acknowledges that the Builder cannot guarantee the cabinetry finish or provision of certain upgrades and shall not hold the Builder liable for provision of same.

UPGRADES/EXTRAS: All upgrades and additional selections indicated on the colour chart must be accompanied by an upgrades/extras sheet (PES) and full payment otherwise the selection will be invalid. All colour charts and upgrades/extras will not proceed until verified and signed by an authorized signing officer at the Vendor's head office. **CHANGES WILL NOT BE PERMITTED UPON COMPLETION AND SUBMISSION OF THE COLOUR CHART.**

HARDWOOD / LAMINATE FLOORING: Due to the properties of wood and laminate, many variables can affect the overall look of the finished product. Variations include but not limited to wood type or laminate finish, colour/stain and wood grain are significant factors that make exact colour matching impossible. The purchaser acknowledges that the hardwood flooring is a pre-finished product in a controlled environment. Expansion, compression and cupping are characteristics of hardwood flooring once installed in the home. The purchaser acknowledges these may become apparent over time and despite the Builders' efforts to install the hardwood flooring materials in keeping with good workmanship, the Builder shall not be responsible nor held liable for minor variances in fluctuation in hardwood flooring materials.

UPGRADES/EXTRAS: All upgrades and additional selections indicated on the colour chart must be accompanied by an upgrades/extras sheet (PES) and full payment otherwise the selection will be invalid. All colour charts and upgrades/extras will not proceed until verified and signed by an authorized signing officer at the Vendor's head office. **CHANGES WILL NOT BE PERMITTED UPON COMPLETION AND SUBMISSION OF THE COLOUR CHART.**

HARDWOOD / LAMINATE WAIVER:

I/We understand hardwood flooring is classified as a porous material and as such not recommended by the Builder in certain areas. I/We understand there is a concern due to possible water and other substances being frequently splashed or spilled onto the floor and in contravention of Ontario Building Code Section 9.30.1.2(1).

"Finished flooring bathrooms, kitchens, public entrance halls, laundry & general storage areas shall consist of resilient flooring, felted-synthetic-fibre floor coverings, concrete, terrazzo, ceramic tile, mastic or other types of flooring providing similar degrees of water resistance."

I/We are prepared to assume full responsibility for any damage caused to the hardwood floor or subfloor due to moisture absorbercy in the mentioned areas, and agree to waive any claims against the Township of residence, TARION and/or the Builder in relation to the matter. ****SEE COLOUR CHART FOR LOCATIONS****

As per specs

Additional charges may apply for cabinetry, electrical and plumbing in order to accommodate the specs given by the homeowner.

NOTE: It is the Purchaser's responsibility to coordinate delivery, installation and hook up of appliances and to ensure they are installed as per Manufacturers specifications after closing.

Purchaser acknowledges responsibility for providing correct specification for such appliances. The purchaser agrees to deliver forthwith to the Builder the manufacturer's appliance specifications where the size exceeds the standard openings.

If specs not received, the standard openings as determined by Zancor Homes will be provided. If rework/repair is required due to late specs received, additional costs will be applied.

Appliance Specs are DUE (if not received during appointment):

2 WEEKS FROM SIGNED DATE ABOVE – Specs received after this date and changes are required to accommodate the appliances, an administration fee of minimum \$250 will apply.

*Changes must be approved by head office.

COAST
APPLIANCES
Brands You Want, Expertise You Need

RETAIL TERMS AND CONDITIONS

All appliances or services offered by Coast Wholesale Appliances Inc. (Coast) are sold subject to the terms and conditions stated herein. These terms and conditions shall apply to the sale of the Products described in a Quotation, Invoice or other contract documentation. Except as expressly agreed in writing, no other terms and conditions, including any terms and conditions attached to, or discussed in person with Buyer shall apply.

Prior to delivery, Buyer must fulfill the following responsibilities:

- 1.) Doorways, passageways, and stairways must be measured to ensure that appliance will fit and can easily enter the premises.
- 2.) Buyer must notify Coast if delivery site has several staircases as more delivery men will be required to complete the job.
- 3.) Required cutout size (H x W x D) must be measured exactly according to appliance dimensions.
- 4.) If there is a change in delivery address, delivery date, or any foreseen circumstance that may affect the scheduled delivery, Coast requires 24 hour notice.
- 5.) Buyer must be present at site, or have a representative of buyer present when delivery takes place to accept delivery and sign that appliances have arrived in good order.
- 6.) Buyer is responsible for electrical, plumbing and unplugging any existing appliance that requires removal.

Payment & Price Increases:

- 1.) All payments are due 24 hours prior to delivery. If a payment is not received or payment method is declined, the buyer forfeits the ownership of any items purchased. If no payment is received, no items will be shipped.
- 2.) Title to all goods remains in the name of Coast Wholesale Appliances Inc., until paid in full.

- 3.) SPECIAL ORDER PRODUCT REQUIRES A 25% DEPOSIT WHICH IS NONREFUNDABLE OR TRANSFERABLE.

ACKNOWLEDGED: _____

- 4.) Buyer agrees that the price stated on a Quotation or Invoice is subject to increase if appliances are not shipped within a 9 month period from date of sale. This increase can be due to supplier increases or a change in the USD exchange rate.

Shipping Policies:

- 1.) All shipping costs will be paid for by the buyer in the amount agreed upon by Coast at the time of purchase. If an item is damaged during shipping, Buyer must contact Coast immediately and must not open, use, or install the appliance.
- 2.) Anti-tip brackets are provided by manufacturer to prevent ranges from dangerously tipping forward. Coast does not install these brackets and it is the Buyers duty to ensure that they are installed.
- 3.) A specified delivery time cannot be confirmed.

Refund/Return Policy:

- 1.) Coast is not obligated to accept returns. No goods are to be returned without prior permission.
- 2.) If Coast deems an appliance acceptable and in new condition then a minimum prepaid 20% restocking charge will be taken on all returned goods.
- 3.) If an item is damaged during shipping or is unsatisfactory, Coast approval is needed before the item may be considered for a refund. No Claims are allowed after receipt of goods unless the damage is noted on the driver delivery copy.
- 4.) An item may be cancelled up until payment has been processed.

DEPOSITS ON SPECIAL ORDER PRODUCT ARE NOT REFUNDABLE AND NONTRANSFERABLE.

Warranty:

First Year Warranty is covered by the manufacturer. Full particulars of warranty are available in the Owner's Manual. Coast is not liable for misuse, or improper installation of appliances. Extended warranty, if purchased, is detailed in Coast's Extended Warranty Plan.

These terms and conditions are subject to change

21.5 cu. ft. Counter Depth Side-by-Side Refrigerator with Food Showcase Fridge Door

Installing Your Refrigerator

1. Measure the height, width and depth of the opening, making sure to include baseboards, moulding, tile, countertop overhang, etc. Check to be sure there is enough room to open the door (consider walls, islands or other obstacles when measuring).
2. Refer to illustration below to determine dimensions.
3. Allow 2" of clearance on hinge side of refrigerator when installing next to a wall where handle may make contact.
4. Allow 1" minimum clearance at rear for proper air circulation and water/electrical connections. Allow a 3/8" minimum clearance at sides and top for ease of installation.
5. Ensure each door and entry way in the home is wide enough for the refrigerator to be moved through easily.

Please note: The following dimension and cut-out information is for planning purposes only. For complete installation details consult manual packed with product, or download manual online at samsung.com

Dimensions

Total Capacity: 21.5 cu. ft.

Refrigerator: 14.3 cu. ft.

- Food Showcase Fridge Door with Metal Cooling – 2 Slide-out Door Bins
- 1 Tilting Door Bin

SAMSUNG

Samsung received the highest numerical score for French door refrigerators (3-way tie) in the proprietary J.D. Power and Associates 2014 Kitchen Appliance Satisfaction Study, based on more than 6,400 evaluations from customers who purchased refrigerators during the past 24 months. The study was fielded from January through March 2014. Your experiences may vary. Visit jdpower.com for more information.
Actual colour may vary. Design, specifications, and colour availability are subject to change without notice.
Non-metric weights and measurements are approximate.

SIGNATURE FEATURES

FULL INDUCTION COOKTOP WITH VIRTUAL FLAME TECHNOLOGY

- Induction cooking focuses the most heat directly to the pot so that you can boil and cook faster, plus simmer with more control. Induction cooking uses heat more efficiently as compared to electric and gas.
- LED lights shine onto pots and pans to provide the visual of gas cooking with the precision of induction.

FLEX DUO™ OVEN

- 5.8 cu. ft. oven splits into two ovens (2.6 cu. ft. and 3.1 cu. ft.) with the Smart Divider.
- Two temperature controls cook dishes at different temperatures.
- No noticeable transfer of aroma.

CHEF BAKE

- Chef Bake delivers consistent cooking temperature with minimum fluctuation.
- Typical ovens experience up to 25 degrees of temperature change during cook time while Chef Bake never fluctuates more than 8 degrees Fahrenheit.

PREMIUM DESIGN WITH GUIDING LIGHT CONTROLS

- Intuitive controls offer simple, step-by-step instructions for choosing cooking options.
- Only illuminates cooking options that are able to be selected and goes from left to right eliminating back and forth.

- Control temperature and time settings, select cooking functions and program your favorite recipes.

GLIDING RACK

- Glides heavy items in and out with ease.
- Easily check on food with lightweight slicing action with the ball-bearing gliding rack.

Dryer Dimensions

Front view:

Side view:

Back view:

NOTE: Most installations require a minimum of 5" (127 mm) clearance behind dryer for exhaust vent with elbow. See "Venting Requirements."

*Approx. measurement.

Installation spacing for recessed area or closet installation

All dimensions show recommended and minimum spacing allowed.

- Additional spacing should be considered for ease of installation and servicing.
- Additional clearances might be required for wall, door, floor moldings, and dryer venting.
- Additional spacing should be considered on all sides of the dryer to reduce noise transfer.
- For closet installation with a door, minimum ventilation openings in the top and bottom of the door are required. Louvered doors with equivalent ventilation openings are acceptable.

■ Companion appliance spacing should also be considered. **Recommended installation clearances (dryer only):**

*0" (0 mm) spacing is allowed for straight-back venting only. For steam models only, inlet hose must not be kinked.

Minimum installation clearances (dryer only):

| | Front | Sides | Rear | Top |
|---------------|-------|------------|-------------|-----------|
| Recessed | NA | 0" (0 mm) | 0" (0 mm)** | 0" (0 mm) |
| Closet | NA | 0" (0 mm) | 0" (0 mm)** | 0" (0 mm) |
| Under Counter | NA | 1" (25 mm) | 0" (0 mm)** | 0" (0 mm) |

**0" (0 mm) spacing is allowed for straight-back venting only.

Custom under counter installation:

ELECTRICAL REQUIREMENTS

To supply the required 3- or 4-wire, single phase, 120/240 volt, 60 Hz, AC only electrical supply (or 3- or 4-wire, 120/208 volt electrical supply, if specified on the serial/rating plate) on a separate 30-amp circuit, fused on both sides of the line. Connect to an individual branch circuit. Do not have a fuse in the neutral or grounding circuit. Do not use an extension cord.

APPEL/17 606169

VENTING REQUIREMENTS

Exhaust venting: Exhaust your dryer to the outside. 4" (102 mm) diameter vent is required. Rigid or flexible metal exhaust vent must be used. Do not use plastic or metal foil vet. Exhaust hood must be at least 12" (305 mm) from the ground or any object that may be in the path of the exhaust.

WARNING: To reduce the risk of fire, this dryer **MUST BE EXHAUSTED OUTDOORS.**

IMPORTANT: Observe all governing codes and ordinances. Dryer exhaust must not be connected into any gas vent, chimney, wall, ceiling, attic, crawlspace, or a concealed space of a building. Only rigid or flexible metal vent shall be used for exhausting.

- Only a 4" (102 mm) heavy metal exhaust vent and clamps may be used.
- Do not use plastic or metal foil vent.

Exhaust hoods:
Recommended Styles:

Louvered Hood

Box Hood

Acceptable Style:

Angled Hood

Determine vent path:

- Select route that will provide straightest and most direct path outdoors.
- Plan installation to use fewest number of elbows and turns.
- When using elbows or making turns, allow as much room as possible.
- Bend vent gradually to avoid kinking.
- Use as few 90° turns as possible.

Determine vent length and elbows needed for best drying performance:

- Use the following "Vent System Charts" to determine type of vent material and hood combinations acceptable to use.

NOTE: Do not use vent runs longer than those specified in "Vent System Charts."

Exhaust systems longer than those specified will:

- Shorten life of dryer.
- Reduce performance, resulting in longer drying times and increased energy usage.

Because Whirlpool Corporation policy includes a continuous commitment to improve our products, we reserve the right to change materials and specifications without notice.

22 21

The "Vent System Charts" provide venting requirements that will help achieve best drying performance.

| Standard Vent System Chart | | |
|----------------------------|--------------|-----------------|
| Number of 90° elbows | Type of vent | Angled hoods |
| 0 | Rigid metal | 64 ft. (20 m) |
| 1 | Rigid metal | 54 ft. (16.5 m) |
| 2 | Rigid metal | 44 ft. (13.4 m) |
| 3 | Rigid metal | 35 ft. (10.7 m) |
| 4 | Rigid metal | 27 ft. (8.2 m) |

| Long Vent System Chart | | |
|------------------------|--------------|------------------|
| Number of 90° elbows | Type of vent | Angled hoods |
| 0 | Rigid metal | 160 ft. (48.8 m) |
| 1 | Rigid metal | 150 ft. (45.7 m) |
| 2 | Rigid metal | 140 ft. (42.7 m) |
| 3 | Rigid metal | 130 ft. (39.6 m) |
| 4 | Rigid metal | 120 ft. (36.6 m) |

To determine if your model has a long vent system, refer to the type code located on the serial number plate in the inner door well. Example: An electric model would be **DALV** (Long Vent) – ELE – XXXXXX-XXX.

NOTE: For long vent systems, use of box/louvered hoods will improve venting, regardless of length.

The dryer must be connected to the cold water faucet using new inlet hoses (not supplied). Do not use old hoses.

Dimensions are for planning purposes only. For complete details, see installation instructions packed with product. Specifications subject to change without notice.

Custom cabinet installation (washer only):

** Recommended 4" (102 mm), minimum 1.5" (38 mm)

ELECTRICAL REQUIREMENTS

A 120 volt, 60 Hz., AC only, 15- or 20-amp, fused electrical supply is required. A time-delay fuse or circuit breaker is recommended. It is recommended that a separate circuit serving only this appliance be provided.

DRAIN SYSTEM

Drain system can be installed using a floor drain, wall standpipe, floor standpipe, or laundry tub. Select method you need.

IMPORTANT: To avoid siphoning, only 4.5" (114 mm) of drain hose should be inside standpipe. Always secure drain hose with cable tie.

Floor standpipe drain system

Minimum diameter for a standpipe drain: 2" (51 mm). Minimum carry-away capacity: 17 gal. (64 L) per minute. A 1/4" (6 mm) diameter to 1" (25 mm) diameter Standpipe Adapter Kit is available (Part Number 3363920). Top of standpipe must be at least 30" (762 mm) high; install no higher than 96" (2.44 m) from bottom of washer. If you have an overhead sewer and need to pump higher than 96" (2.44 m), a sump pump and associated hardware are needed. See "Alternate Parts".

Wall standpipe drain system

See requirements for floor standpipe drain system.

Undercounter installation - washer only:

All dimensions show recommended spacing allowed, except for closet door ventilation openings which are the minimum required.

For each arrangement, consider allowing more space for ease of installation and servicing, and spacing for companion appliances and clearances for walls, doors, and floor moldings.

Space must be large enough to allow door to fully open. Add spacing of 1" (25 mm) on all sides of washer to reduce noise transfer. If a closet door or louvered door is installed, top and bottom air openings in door are required.

Laundry tub drain system

Minimum capacity: 20 gal. (76 L). Top of laundry tub must be at least 30" (762 mm) above floor; install no higher than 96" (2.44 m) from bottom of washer.

Floor drain system

Floor drain system requires a Siphon Break Kit (Part Number 285834), 2 Connector Kits (Part Number 285835), and an Extension Drain Hose (Part Number 285863) that may be purchased separately. See "Alternate Parts". Minimum siphon break height: 28" (710 mm) from bottom of washer. (Additional hoses may be needed.)
