INTERIOR FINISHES ACKNOWLEDGEMENT / WAIVER

Purchaser accepts and acknowledges that the Builder reserves the right to substitute materials with those of equal or better quality where the manufacture, scheduling or delivery of materials may directly impact the Builder's ability to meet its contractual obligations under the Agreement of Purchase and Sale.

UPGRADES/EXTRAS: All upgrades and additional selections indicated on the colour chart must be accompanied by an upgrades/extras sheet (PES) and full payment otherwise the selection will be invalid. All colour charts and upgrades/extras will not proceed until verified and signed by an authorized signing officer at the Vendor's head office. **CHANGES WILL NOT BE PERMITTED UPON COMPLETION AND SUBMISSION OF THE COLOUR CHART.**

PORCELAIN & NATURAL STONES: Due to the properties of natural stones including but not limited to **marble, granite, quartz,** no two pieces are exactly the same. Variations in colour, tone, granularity (pitting, fissures) and pattern are to be expected, including various lighting may affect the overall finished look. Stone tops are sealed at time of installation and should never be cleaned with lemon oil or vinegar. Stones are porous materials, therefore any spilled substance require immediate attention. Stone countertops require regular seal re-application as part of home maintenance. Purchaser acknowledges colour and product variations as well as natural imperfections may exist with the selection of natural stone materials and shall not hold the Vendor liable for provision of same.

STONE COUNTERTOP JOINTS: Purchaser is aware that one joint will be at each corner and on either side of slide-in-range (if applicable). It will also be where the length of the counter top exceeds the length of a stone slab. Slabs are usually approximately 5'x 8'.

CERAMIC TILES: Due to manufacturing, shade (dye lots), product variations may exist that can affect the overall look of the finished product. Although every effort will be made to ensure the colours and materials selected are as close as possible to the samples, the purchaser acknowledges that the sample tiles supplied in the Design Centre may not be identical to the materials installed in the home.

STAIR STAINS: Due to the natural properties of wood, many variables can affect the overall look of the finished product. Factors including but not limited to wood type, knotting, graining, density, age, humidity, and air temperature can result in substantial variations in stain intensity. The purchaser accepts that although the Vendor will do their best to match stain the unfinished stairs as close as possible to the pre-finished floors, it is not possible to have an identical match and that there MAY be shade differences between the two products.

CABINETRY: Due to the natural properties of wood, slight variations apparent with cabinetry are to be expected. This includes but not limited to wood species, wood grain, colour, finish, product variations, and natural imperfections are all factors that may affect the overall look of the finished product. Such factors make exact colour matching impossible. The type and intensity of lighting in the areas of designated cabinetry placement may also highlight characteristics of cabinetry finish. All cabinets shall be finished with a white melamine interior box unless a finished interior is upgraded. Due to building specifications and/or on-site conditions, certain cabinetry upgrades may not be possible. The purchaser acknowledges that the Builder cannot guarantee the cabinetry finish or provision of certain upgrades and shall not hold the Builder liable for provision of same.

UPGRADES/EXTRAS: All upgrades and additional selections indicated on the colour chart must be accompanied by an upgrades/extras sheet (PES) and full payment otherwise the selection will be invalid. All colour charts and upgrades/extras will not proceed until verified and signed by an authorized signing officer at the Vendor's head office. **CHANGES WILL NOT BE PERMITTED UPON COMPLETION AND SUBMISSION OF THE COLOUR CHART.**

HARDWOOD / LAMINATE FLOORING: Due to the properties of wood and laminate, many variables can affect the overall look of the finished product. Variations include but not limited to wood type or laminate finish, colour/stain and wood grain are significant factors that make exact colour matching impossible. The purchaser acknowledges that the hardwood flooring is a pre-finished product in a controlled environment. Expansion, compression and cupping are characteristics of hardwood flooring once installed in the home. The purchaser acknowledges these may become apparent over time and despite the Builders' efforts to install the hardwood flooring materials in keeping with good workmanship, the Builder shall not be responsible nor held liable for minor variances of fluctuation in hardwood flooring materials.

HARDWOOD / LAMINATE WAIVER:

I/We understand hardwood flooring is classified as a porous material and as such not recommended by the Builder in certain areas. I/We understand there is a concern due to possible water and other substances being frequently splashed or spilled onto the floor and in contravention of Ontario Building Code Section 9.30.1.2(1).

"Finished flooring bathrooms, kitchens, public entrance halls, laundry & general storage areas shall consist of resilient flooring, felted-synthetic-fibre floor coverings, concrete, terrazzo, ceramic tile, mastic or other types of flooring providing similar degrees of water resistance.

I/We are prepared to assume full responsibility for any damage caused to the hardwood floor or subfloor due to moisture absorbency in the mentioned areas, and agree to waive any claims against the Township of residence, TARIION and/or the Builder in relation to the matter.

APPLIANCE ACKNOWLEDGEMENT

CONTACT: **Wayne** @ Coast Appliances (905) 303-6909 / 1748 Credit Stone Circle, Vaughan

- ▶ NOTE: Any upgraded appliances are to be paid by the Purchaser, directly to the appliances company.
- ▶ Additional charges to the Purchaser may apply for cabinetry, electrical and plumbing in order to accommodate the specs given by the homeowner.
- ▶ It is the Purchaser's responsibility to provide Zancor Homes with the correct specification for each appliance where it exceeds the standard openings. Zancor Homes will not be responsible for appliances not fitting due to late changes.
- ▶ It is the Purchaser's responsibility to coordinate delivery, installation and hook up of appliances and to ensure they are installed as per Manufacturers specifications after closing.
- ▶ Standard appliance openings are approximate and the minimum required. Sizes may vary due to onsite condition and/or when modifications have been made to the cabinetry.

STANDARD OPENINGS ACCEPTED BY PURCHASER:

Fridge Opening	▶ 36" (+/-) x 74" (+/-)	**Space above the fridge is required due to proper air flow
Stove Opening	▶ 30"	Hood Fan Opening ▶ 30"
Dishwasher Opening	▶ 24"	Hood Fan Vent ▶ 6"

Appliance Specs are DUE 2 WEEKS FROM SIGNED DATE (if not received during appointment)

Specs that require changes/modifications after this date will not be accepted

20 cu. ft. 36-Inch Width Counter-Depth French Door Refrigerator with Interior Dispense

KRFC300EWH

This 20 cubic foot refrigerator has a counter-depth design that gives it a built-in look. But the beauty of this French door refrigerator goes beyond the exterior. The ExtendFresh™ Temperature Management System and Produce Preserver help keep food fresh. LED lighting throughout the refrigerator makes food easy to find on every level.

Top Features

ExtendFresh™ Plus Temperature Management System
Ensures ingredients remain fresh for maximum taste and texture using a sensor-controlled system with a variable-capacity compressor. There is one thermistor in the freezer and one thermistor in the refrigerator.

Interior Water Dispenser
Provides easy access to filtered water inside the refrigerator

Humidity Controlled Crispers
Provide a dedicated storage option with adjustable humidity levels to keep fresh food in an optimal environment.

Produce Preserver
Absorbs ethylene gas emitted by many fruits and vegetables, causing them to over ripen. By removing ethylene, the produce preserver helps extend freshness.

46 DBA Dishwasher with Third Level Rack

KDTE234GWH

Take clean to new heights with features like a Third Level Rack that makes it easy to clean hard-to-place items. The intuitive, one-touch ProWash™ Cycle delivers exceptional results by making real-time cycle adjustments. Plus, the stainless steel interior combined with Heat Dry helps improve drying performance.

Top Features

Third Level Rack
Adds 35% more space and makes it easier to clean long and flat cooking tools like spatulas and serving utensils, as well as items like food processor blades and mixer beaters, while freeing up space in the lower two racks.

ProWash™ Cycle
Determines the ideal cycle for washing dishes based on soil level and then makes real-time adjustments to achieve the best cleaning performance.

Durable Stainless Steel Interior
Offers the beauty and benefits of stainless steel for the dishwasher interior. It resists streaks, stains and odors while retaining heat to help improve drying performance.

Heat Dry Option
Engages a recessed heating element during the dry cycle to ensure dry dishes.

WHIRLPOOL OWNER SUPPORT

Whirlpool is dedicated to providing resources and tools that will make sure you love your appliances and know how to get the most out of them when you get home.

RESOURCES AVAILABLE TO ALL OWNERS

We've ensured that you can easily access info related to your appliances when and where you need it.

WEBSITES:

Our sites are constantly updated with relevant content and resources to help answer questions. The Product Help section is a great tool to help you drill down on FAQs and DIY.

[Whirlpool product help >](#)

[Maytag product help >](#)

[KitchenAid product help >](#)

8 March

YOUTUBE:

Our videos help you with unboxing, installation and early use of your appliances, and we are working to add more! Check out our Youtube channels - we've organized our playlists to help you find what you need!

CUSTOMIZED INFO & TIPS SENT DIRECTLY TO YOUR INBOX

Register your appliance today. It only takes 3 minutes, and when you opt-in to receive emails, we'll send you personalized content based on your new appliance. You'll also gain exclusive access to great promotions. Click below to get started.

[Whirlpool register >](#)

[Maytag register >](#)

[KitchenAid register >](#)

BUILDING AN OWNER PROFILE:

Upon signing up for emails, we will ask you to take a short, fun quiz (if you'd like). This helps us know what appliances you own, the type of content you want / don't want to receive and how often.

[Check out the experience >](#)

ONBOARDING EMAILS:

Our Onboarding program helps you with early use of the appliance, provides ongoing tips as well as points you to where you can find great videos, FAQs and resources on our websites.

ONGOING PERSONALIZED CONTENT:

Based on your profile preferences, we'll make sure to send only what is relevant and helpful to you. These emails range from promos, cooking and cleaning tips, to recipes and more.

OUR GOAL IS TO HELP YOU HAVE THE BEST EXPERIENCE WITH YOUR APPLIANCE AND BE HERE WHEN YOU NEED US!
REMEMBER TO REGISTER YOUR APPLIANCE AND OPT-IN TO RECEIVE PERSONALIZED CONTENT BY EMAIL.

VP562 Transition (Optional) For B300
(B200 Dual Blower & B100 Single Blower)

*Recommended mounting height is for optimum performance.

Connection Diagram (48" Width)

1200 CFM Double B200 Dual Blowers
(Top View)

VP563 Transition (Optional) For B400
(Double B200 Dual Blowers)

VP562/VP563 transition centers outlet over top of hood

Model	Volts	Amps*	Hz	RPM	CFM SP@0.0"	Equivalent CFM*	CFM SP@0.1"	CFM SP@0.2"	CFM SP@0.3"	Minimum Round Duct Size	Sones*
B100 Single	115	2.5	60	1550	300	450	273	245	225	6" (28 in. ²)	5.4
B200 Dual	115	4.0	60	1550	600	900	531	480	430	8" (50 in. ²)	6.5
B200 Dual & B100 Single	115	6.0	60	1550	900	1350	804	725	655	VP562: 10" (79 in. ²)	6.3
Two B200 Duals	115	7.5	60	1550	1200	1800	1062	960	860	VP563: 12" (113 in. ²)	6.6

* Add 2.5 amp for each warming light. Hood is available with LED lights: 30" - 41" 3 lights; 42" - 53" 4 lights; 54" - 66" 4 lights for each 14" light over 66".
* Because the Magic Lung® blowers use centrifugal filtration, unlike conventional blade or mesh filters, the Magic Lung® blower can handle cooking equipment with higher cubic feet per minute (CFM) requirements and can deliver equivalent CFM much more efficiently than other filtration systems. When comparing Magic Lung® blowers to other blowers, use the Equivalent CFM.
Ratings in accordance with the Standard Test Code by the Energy Systems Laboratory of the Texas Engineering Experiment Station.

Vent-A-Hood®

Installation Details

- 1) Read all instructions thoroughly before beginning installation. Note: These instructions apply to standard hoods only. Custom hoods may require additional specification consideration.
- 2) When installing a 9" tall under cabinet hood, it is recommended that the bottom edge of the hood be located no more than 24" - 27" above the cooking surface for optimum performance.

- 3) Inspect the underside of the cabinet for a flush mounting surface. If the underside is recessed, install wood strips to provide a flush surface for the hood mounting screws to engage.
- 4) Cut hole(s) in the bottom of the cabinet to allow for duct(s) and electrical to pass through. Consult the connection diagrams (on next page) for further details on exhaust outlet and electrical placement.
- 5) IF THE HOOD IS TO BE "BACK VENTED", PROCEED DIRECTLY TO STEP 6.

Install the duct(s) from the outside of the home down to the location of the exhaust outlet(s) on the top of the hood allowing room for the transition (if applicable). If a transition is used, install duct down to the location of the transition outlet plus 1". This will allow the transition to engage 1" inside of duct. Consult the connection diagrams (on next page) for further details on exhaust outlet placement.

Use duct tape to seal all joints. A complete listing of available Vent-A-Hood ducting materials is provided on the back page of this instruction sheet.

Transition heights are as follows:

Single Blower (B100):

Dual Blower (B200):

Single and Dual Blower (B100 & B200):

Two Dual Blowers (Two B200s):

6" round duct will connect directly to the top of the liner.

8" round duct will connect directly to the top of the liner.

6" round duct will connect directly to the top of the hood; 8" round will connect directly to the top of the hood. Optional 10" round combination transition (VP562, sold separately) is 17 1/2" tall.

Two 8" rounds connect directly to the top of the hood. Optional 12" round combination transition (VP563, sold separately) is 16 1/2" tall.

8 mmish 1

FRONT LOAD WASHER

5.1 Cu. Ft. I.E.C.

EFLS627U TT/IW

Perfect Steam™ Washer with LuxCare® Wash, SmartBoost™ and IQ-Touch™ Controls

SIGNATURE FEATURES

THE MOST EFFECTIVE STAIN-REMOVING WASHER WITH SMARTBOOST™

Unlike other washers, our washer with SmartBoost™ premixes water and detergent before the cycle begins, maximizing the cleaning power of the detergent.

PERFECT STEAM™ REMOVES TOUGH STAINS

Unlike many washers, our Perfect Steam™ rises from the bottom, gently lifting dirt and stains from fibers.

WORLD'S 1ST ADAPTIVE DISPENSER™ DESIGNED TO ACCEPT PODS®

Get the ultimate clean no matter what type of detergent you prefer with the Adaptive Dispenser™.

THOROUGH CLEANING WITH THE LUXCARE® WASH SYSTEM

Our LuxCare® Wash System offers a thorough clean with improved wash actions, temperature control, and smart load sensing.

PRODUCT DIMENSIONS

Height	38"
Width	27"
Depth	32"

MORE EASY-TO-USE FEATURES

15-MINUTE FAST WASH¹

Quickly deep cleans the items you need most.

SOLID SOIL LEVEL CLEANS CAKED-ON STAINS

The solid soil level gives you a deeper clean to get rid of those tough stains that get caked on, like mud or dirt.

SANITIZE OPTION

Certified to kill and remove 99% of bacteria and 95% of allergens.²

STAINSOAK™ OPTION ELIMINATES PRE-TREAT

Unlike other washers, it starts by premixing water, detergent, and stain remover before the cycle begins to create a powerful, yet gentle cleaning solution. Then, the temperature, tumbling actions, and time are optimized based on the stain you select.

ENERGY STAR®-CERTIFIED

Electrolux washers meet strict criteria to guarantee high-quality energy efficient performance — without sacrificing clean.

ACTIVWEAR CYCLE

Takes care of delicate and expensive activewear garments.

10-YEAR MOTOR WARRANTY PLUS LIFETIME TUB WARRANTY

Rest easy knowing your washer is backed by a 10-year motor and lifetime tub warranty.

PERFECT BALANCE® SYSTEM & SECOND FLOOR GUARANTEE

Balances loads for smooth, quiet operation. So quiet you can even run your washer on the second floor or near bedrooms without noticing it.³

FITS MORE ROOMS WITH REVERSIBLE WASHER DOOR

With reversible washer door, four-way venting, and a standard 27" platform, our products are designed to fit just about anywhere you want to put them.

EXTRA LARGE CAPACITY

Easily cleans a king-sized comforter with extra large 5.1 cu. ft. drum.

Available in:

Titanium (TT) Island White (IW)

11/25/2011

¹Fast time based on 3 lb. DUE load.
²Our products meet the NSF® testing standards.
³As tested on conventional wood floor construction with vinyl floor covering.

15" Pedestal Drawer Installation

Elevates washer height to 53 1/4". For detailed pedestal installation, refer to instructions included with pedestal or on web. Pedestal installation may require modified utility hookup locations. For details, refer to Product Installation Guide on web.

Built-In Installations

*Installation with steam dryer requires additional 3/4" hose clearance.

Closet Installation:

If washer and dryer are installed in same closet, door(s) MUST be vented with 120 sq. in. minimum louvered opening, equally divided, located 3" from top and bottom of door. Louvered door(s) with equivalent air openings for full length of door is acceptable. Air openings MUST remain unobstructed with door(s) installed.

Installation Clearances:

Washer can be built in alone or with dryer (side by side or stacked) in closet, recess or under counter. Installation with 0" minimum clearance required around sides and back of unit(s). To achieve 0" minimum rear clearance when installed with dryer, dryer MUST be vented straight back or with quick-turn 90° elbow. Steam dryer requires additional 3/4" steam hose clearance at back of unit(s). Installation of closet door(s) requires additional 1" minimum clearance between front of unit(s) and door(s). Location of plumbing, exhaust and utility hookups MUST be considered when planning any built-in installation. For additional installation details, refer to Product Installation Guides on web.

Under Counter Installation:

Installation of washer alone or side by side with dryer under counter, requires custom-built countertop and/or cabinetry to accommodate unit(s) height.

Stacking Units:

Stacking dryer above washer requires use of optional Stacking Kit (PN# STACKITX) with modified utility hookup locations for dryer. For complete installation details, refer to instructions included with Stacking Kit or on web.

Front Load Washer Specifications

- Product Weight – 237 Lbs. / Shipping Weight – 247 Lbs.
- An electrical supply with grounded three-prong receptacle is required. The power supply circuit must be installed in accordance with current edition of National Electrical Code (ANSI/NFPA 70) and local codes & ordinances. (Do not use same circuit as dryer.)
- Voltage Rating – 120V/60Hz
- Connected Load (kW Rating) @ 120 Volts = 1.2 kW
- Amps @ 120V = 12A
- Equipped with 120V 3-wire power supply cord, approx. 60" long.
- Always consult local and national electric & plumbing codes.
- To maximize detergent effectiveness, ambient temperature should never be below 60°F.
- Can be installed alone, with or without optional 15" pedestal drawer, or stacked beneath matching Electrolux Dryer, which requires installation of optional dryer stacking kit. (For installation details, refer to instructions included with optional pedestal or stacking kit or on web.)
- Can be built in alone or with matching Electrolux Dryer (side by side or stacked) in closet, recess or under counter installation with 0" minimum clearance required around sides and back of unit(s). To achieve 0" minimum rear clearance when installed with dryer, dryer MUST be vented straight back or with quick-turn 90° elbow. Steam dryer requires additional 3/4" steam hose clearance at back of unit(s). Installation of closet door(s) requires additional 1" minimum clearance between front of unit(s) and door(s). Location of plumbing, exhaust and utility hookups MUST be considered when planning any built-in installation.
- Under-counter installation requires custom-built countertop and/or cabinetry to accommodate unit(s) height.

- Do NOT install in area exposed to dripping water or outdoor weather conditions, or where gasoline or other flammables, including automobiles, are kept or stored.
- For garage installation, washer MUST be located minimum 18" above floor.
- Floor MUST be solid with 1" maximum slope. To ensure vibration or movement does not occur, reinforcement of floor may be necessary. Do NOT install on carpeted surface.
- Leveling legs supplied to level washer properly and reduce excessive noise and vibration.
- H/C water faucets MUST be installed within 42" of washer's water inlet and MUST be 3/4" garden hose type, to connect to 46-1/2" inlet hoses.
- Water pressure MUST be between 20 and 120 psi with NOT more than 10 psi pressure difference between hot and cold.
- Drain required with standpipe diameter of 1-1/4" min. and height of 24" min./ 96" max. above floor, capable of eliminating 17 gallons per minute. Attached 59" drain hose can reach 79"-high standpipe.

Note: For planning purposes only. Refer to Product Installation Guide on the web at electroluxappliances.ca for detailed instructions.

ELECTRIC FRONT LOAD DRYER

8.0 Cu. Ft.

EFMC627U TT /IW

Perfect Steam™ Dryer with Instant Refresh™ and 10-Touch™ Controls

SIGNATURE FEATURES

PREDICTIVE DRY™ MORE ACCURATELY PREDICTS DRY TIMES

Knows after 90 seconds a more accurate time your clothes will be dried to perfection so you don't have to keep checking on your load.

HELP PREVENT OVER- OR UNDER-DRYING WITH LUXCARE® DRY SYSTEM

A more precise sensor for a better dry to protect your clothes from over-drying, but also to help make sure you don't have wet clothes left in the load.

INSTANT REFRESH™ CYCLE REVIVES FABRICS

Remove wrinkles and quickly refresh items with steam in 10 minutes.

15-MINUTE FAST DRY™

Quickly dry the items you need most.

PRODUCT DIMENSIONS

Height	38"
Width	27"
Depth	31-1/2"

MORE EASY-TO-USE FEATURES

ENERGY STAR®-CERTIFIED

Rigorously tested to do more with less. Electrolux dryers meet strict criteria to guarantee high-quality energy efficient performance.

PERFECT STEAM™ WRINKLE RELEASE OPTION

Gently releases wrinkles and reduces static to keep clothes looking their best.

EXTENDED TUMBLE OPTION KEEPS CLOTHES TANGLE-FREE

Gently tumbles your clothes without heat to keep them tangle-free — perfect for when you cannot remove clothes right after the cycle ends.

LUXCARE® LINT SHIELD HELPS AVOID MESSAGES

Traps lint so it doesn't make a mess, even if you empty it while there are clothes in the dryer.

ACTIVEMWEAR CYCLE

Takes care of delicate and expensive activewear garments.

EXTRA-LARGE CAPACITY DRYER

Dry more in each load with our 8.0 cu.ft. dryers.

PLATINUM STAR® LIMITED WARRANTY

Our exclusive limited warranty that includes three-year coverage on parts and one year on labour.²

9 CYCLES TO CARE FOR EVERY FABRIC

Perfectly dry every item with tailored cycles for towels, allergen, delicates, and more.

FITS MORE ROOMS WITH REVERSIBLE DOOR

Enjoy easy loading no matter how your washer and dryer are configured.

OPTIONAL PEDESTALS AND STACKING KIT FOR MORE INSTALLATION OPTIONS

Raise your units with optional pedestal drawers that provide extra storage. Or use the optional stacking kit for convenient placement in small spaces.

Stacking dryer above washer requires use of optional Stacking Kit (PN# STACKKIT7X) with modified utility hookup locations for dryer. For complete installation details, refer to instructions included with Stacking Kit or on web.

Electric Dryer Specifications

- Product Weight – 130 Lbs. / Shipping Weight – 140 Lbs.
- Voltage Rating – 240V/60 Hz/30A
- Single phase 3- or 4-wire cable, 240 Volt, 60 Hertz AC, only electrical supply with ground required on separate circuit fused on both sides of line. (Do not use same circuit as washer.)
- Connected Load (kW Rating) @ 240 Volts = 6.0 kW
- Amps @ 240V = 25A
- Dryer MUST employ a 3-conductor NEMA 10-30 type SRDT or 4-conductor NEMA 14-30 type SRDT or ST (as required), rated at 240 volt AC, minimum, 30 amp power supply cord marked for use with clothes dryers (not supplied).
- Grounding through neutral link prohibited in specific applications and certain locales, requiring use of 4-wire system. (For detailed electrical requirements, refer to Product Installation Guide on web.)
- Always consult local and national electric & plumbing codes.
- Can be installed alone, with or without optional 15" pedestal drawer, or stacked above matching Electrolux Washer, which requires installation of optional dryer stacking kit. (For installation details, refer to instructions included with optional Pedestal or stacking kit or on web.)
- Can be built in alone or with matching Electrolux Washer (side by side or stacked) in closet, recess or under counter installation with 0" minimum clearance required around sides and back of unit(s). To achieve 0" minimum rear clearance, dryer MUST be vented straight back or with quick-turn 90° elbow. Steam dryer requires additional 3/4" steam hose clearance at back of unit(s). Installation of closet door(s) requires additional 1" minimum clearance between front of unit(s) and door(s). Location of plumbing, exhaust and utility hookups MUST be considered when planning any built-in installation.
- Under-counter installation requires custom-built countertop and/or cabinetry to accommodate unit(s) height.

- Do NOT install in area exposed to dripping water or outdoor weather conditions, or where gasoline or other flammables, including automobiles, are kept or stored.
- For garage installation, dryer MUST be located minimum 18" above floor.
- Floor MUST be solid with 1" maximum slope. To ensure vibration or movement does not occur, reinforcement of floor may be necessary. Do NOT install on carpeted surface.
- Dryer MUST exhaust to outside of building, NOT into any concealed space.
- Dryer equipped for 4-way venting and approved for up to 125-foot-equivalent of duct length, determined by length of run and number of elbows needed.
- Exhaust installation requires minimum 4"-diameter rigid or semi-rigid metal duct with approved, unobstructed vent hood having swing-out dampers(s). If installing rigid metal duct (preferred), do not exceed MAXIMUM venting run length of 125 ft., allow deductions for elbows and vents. If installing semi-rigid metal duct, do not exceed MAXIMUM venting run length of 8 ft., always allow deductions for elbows and vents (refer to Product Installation Guide on web for additional information). Do NOT use flexible plastic or metal foil duct and use shortest run possible.
- Leveling legs supplied to level dryer properly and reduce excessive noise and vibration.
- Water inlet hose for steam setting connects to cold water supply with "Y" connector and requires 3/4" clearance between back of unit and wall.

Note: For planning purposes only. Refer to Product Installation Guide on the web at electroluxappliances.ca for detailed instructions.
