LOT 65A

** Any upgrades checked in this appliance form must be accompanied with specs provided by the Purchaser.

**It is the responsibility of the trade to inform the Builder of any discrepancies with specs, sketches, extras and/or colour chart PRIOR to production/installation.

ZANCOR

221 North Rivermede Road, Concord, Ontario L4K 3N7 * T: (905) 738.7010 F: (905) 738.5948

221 North Rivermede Road, Concord, Ontario L4K 3N7 * T: (905) 738.7010 F: (905) 738.5948

Purchaser accepts and acknowledges that the Builder reserves the right to substitute materials with those of equal or better quality where the manufacture, scheduling or delivery of materials may directly impact the Builder's ability to meet its' contractual obligations under the Agreement of Purchase and Sale.

UPGRADES/EXTRAS: All upgrades and additional selections indicated on the colour chart must be accompanied by an upgrades/extras sheet (PES) and full payment otherwise the selection will be invalid. All colour charts and upgrades/extras will not proceed until verified and signed by an authorized signing officer at the Vendor's head office. **CHANGES WILL NOT BE PERMITTED UPON COMPLETION AND SUBMISSION OF THE COLOUR CHART.**

PORCELAIN & NATURAL STONES: Due to the properties of natural stones including but not limited to **marble, granite, quartz**, no two pieces are exactly the same. Variations in colour, tone, granularity (pitting, fissures) and pattern are to be expected, including various lighting may affect the overall finished look. Stone tops are sealed at time of installation and should never be cleaned with lemon oil or vinegar. Stones are porous materials, therefore any spilled substance require immediate attention. Stone countertops require regular seal re-application as part of home maintenance. Purchaser acknowledges colour and product variations as well as natural imperfections may exist with the selection of natural stone materials and shall not hold the Vendor liable for provision of same.

STONE COUNTERTOP JOINTS: Purchaser is aware that one joint will be at each corner and on either side of slide-in-range (if applicable). It will also be where the length of the counter top exceeds the length of a stone slab. Slabs are usually approximately 5'x 8'.

CERAMIC TILES: Due to manufacturing, shade (dye lots), product variations may exist that can affect the overall look of the finished product. Although every effort will be made to ensure the colours and materials selected are as close as possible to the samples, the purchaser acknowledges that the sample tiles supplied in the Design Centre may not be identical to the materials installed in the home.

STAIR STAINS: Due to the natural properties of wood, many variables can affect the overall look of the finished product. Factors including but not limited to wood type, knotting, graining, density, age, humidity, and air temperature can result in substantial variations in stain intensity. The purchaser accepts that although the Vendor will do their best to match stain the unfinished stairs as close as possible to the pre-finished floors, it is not possible to have an identical match and that there MAY be shade differences between the two products.

CABINETRY: Due to the natural properties of wood, slight variations apparent with cabinetry are to be expected. This includes but not limited to wood species, wood grain, colour, finish, product variations, and natural imperfections are all factors that may affect the overall look of the finished product. Such factors make exact colour matching impossible. The type and intensity of lighting in the areas of designated cabinetry placement may also highlight characteristics of cabinetry finish. All cabinets shall be finished with a white melamine interior box unless a finished interior is upgraded. Due to building specifications and/or on-site conditions, certain cabinetry upgrades may not be possible. The purchaser acknowledges that the Builder cannot guarantee the cabinetry finish or provision of certain upgrades and shall not hold the Builder liable for provision of same.

UPGRADES/EXTRAS: All upgrades and additional selections indicated on the colour chart must be accompanied by an upgrades/extras sheet (PES) and full payment otherwise the selection will be invalid. All colour charts and upgrades/extras will not proceed until verified and signed by an authorized signing officer at the Vendor's head office. **CHANGES WILL NOT BE PERMITTED UPON COMPLETION AND SUBMISSION OF THE COLOUR CHART.**

HARDWOOD / LAMINATE FLOORING: Due to the properties of wood and laminate, many variables can affect the overall look of the finished product. Variations include but not limited to wood type or laminate finish, colour/stain and wood grain are significant factors that make exact colour matching impossible. The purchaser acknowledges that the hardwood flooring is a pre-finished product in a controlled environment. Expansion, compression and cupping are characteristics of hardwood flooring once installed in the home. The purchaser acknowledges these may become apparent over time and despite the Builders' efforts to install the hardwood flooring materials in keeping with good workmanship, the Builder shall not be responsible nor held liable for minor variances of fluctuation in hardwood flooring materials.

HARDWOOD / LAMINATE WAIVER:

I/We understand hardwood flooring is classified as a porous material and as such not recommended by the Builder in certain areas. I/We understand there is a concern due to possible water and other substances being frequently splashed or spilled onto the floor and in contravention of Ontario Building Code Section 9.30.1.2(1).

"Finished flooring bathrooms, kitchens, public entrance halls, laundry & general storage areas shall consist of resilient flooring, felted-synthetic-fibre floor coverings, concrete, terrazzo, ceramic tile, mastic or other types of flooring providing similar degrees of water resistance.

I/We are prepared to assume full responsibility for any damage caused to the hardwood floor or subfloor due to moisture absorbercy in the mentioned areas, and agree to waive any claims against the Township of residence, TARIION and/or the Builder in relation to the matter. ****SEE COLOUR CHART FOR LOCATIONS****

... ON COMPLETION AND SUBMISSION OF THE COLLOIDAL CHART.

A-55

There are no other means for protection of larvae.

STAINLESS COUNTERTOP JOINTS: Particular to insure that one joint will be at each corner and on either side of sink or range (if applicable). It will also be where the length of the countertop exceeds the length of a stone slab. Slabs are usually approximately 5 ft. 6 in.

V.A.S.B.

DISCLAIMER: Due to manufacturing, shade (eye box), product variations may exist that can affect the overall look of the finished product. Although every effort will be made to ensure the colors and materials selected are as close as possible to the samples, the purchaser acknowledges that the sample that shipped in the Design Centre may not be identical to the materials installed in the home.

A. 5

5. **Other findings:** Due to the natural properties of wood, many variables can affect the overall look of the finished product. Factors including, but not limited to wood type, handling, grading, density, age, moisture, and air temperature can result in noticeable variations in stain intensity. This particular material that although this vendor will do their best to match stain the undamaged areas as close as possible in the pre-finished rooms, it is not possible to have an identical match and that there may be slight differences between the two products.

A. 58

indicating that we focused on the most important, high-risk, and/or new products, while, within categories, only categories are to be expected. This means that we may affect the overall risk of the individual product. Such findings can also deliver manufacturing insights. The type and intensity of upgrading in the context of targeted product decisions may also highlight characteristics of category groups. All products sold in the same category, however, may not be subject to the same upgrading. Due to differing specifications and/or other conditions, certain category upgrades may not be possible. The product and/or manufacturing that the supplier cannot guarantee the category leads to provision of certain upgrades and shall not hold the supplier liable for provision of same.

UNPAID/RETURN: All unpaid and additional selections indicated on the colour chart must be accompanied by an original/invoice sheet (P23) and full payment otherwise the selection will be placed. All colour charts and original/invoice will not proceed until received and signed by an authorised signing officer at the Vendor's head office. CHARTS WILL NOT BE REPRINTED UPON COMPLETION AND SUBMISSION OF THE COLOUR CHART.

HAIRDRESSING POLYMERES. One of the properties of wood and bamboo, many vehicles can affect the overall look of the finished product. Polymeres include are not limited to wood grain or bamboo grain, and wood grain is a significant feature that many men prefer making. The polymeres technologies that the hairdresser product is a perfect product to be marketed. Epoxides, carboxylic acid and epoxy are characteristics of hairdresser polymeres are included in this. The polymeres technologies that may become important over time and despite the polymeres effect to make the hairdresser technology is keeping with good and modernity. The hairdresser will not be negatively affected for minor features of hairdresser in hairdresser product market.

HARDWOOD / LAMINATE WATER:

With underlaid hardwood flooring is classified as a porous material and as such not recommended by the Builder in certain areas. With underlaid there is a concern due to possible water and other substances being frequently spilled or spilled onto the floor and in contravention of Ontario Building Code Section 9.30.1.11).

“We are prepared to assume full responsibility for any damage caused to the hardwood floor or wallpaper due to moisture absorption in the mentioned areas, and agree to waive any claims against the Township of residence, TAYLOR and/or the body in residence to the matter.” **“SEE CO. OUR CLAIM FOR TOWNSHIPS”**

BRICK/JOINT PATTERN INSTALLATION RELEASE FORM

FLOOR TILES *Brick installation is standard*

WALL TILES *Brick installation requires an additional charge and must be included on the extras if selected*

(Large tiles installation for floor and wall) – ½ Brick

Please be advised it has come to our attention, that due to production, many of the over-sized and odd shaped, man-made tiles (i.e. porcelain & ceramic), have been found to have a slight bow in the tile. It is a standard occurrence with all suppliers and manufacturers.

It is therefore recommended, that if and when a purchaser requests to install one of these tiles in a brick-joint pattern, that it be installed on a ½ brick pattern, to try to avoid lippage. Attached with this letter, you will find a layout of the ½ brick installation that has been recommended.

LOCATIONS:

Entry, Mud, Powder, Laundry, Master, Hair Bath
Kitchen,

Please understand, even in using this ½ brick installation, there may still be minimal lippage which cannot fully be eliminated.

Hence, when there is a request for brick-joint installation, Zancor Homes and their contractor, cannot be held responsible for this matter.

A.S.B

Homeowner(s) Initial

(Small tile installation for walls) – ½ Brick

Purchaser requests to install small wall tiles on a backsplash or shower wall in a brick-joint pattern, that it be installed on a ½ brick pattern.
