Please Complete the following items:

DAI	Type	Issue	Appt. Date/Time	Notes
165848	Interval	Main Bathroom- General- primary bath - plumbing for shower - this drain got clogged so we unscrewed it and try to plumb it out and it still goes slow & I thought it was a straight tube going down but the workmanship on that part didnt look right as it seems its filled in with a lot of the white stuff.. Im not always there and dont always use that shower and Jon has no hair at all so Im not quite sure what has happened. Jon had mentioned the drain for the glass shower was always a bit slower in draining
